

UNEMPLOYED ARMY ON WAY TO STORM OAKLAND

ENGLAND TO DEMAND REPRISAL

GREAT BRITAIN CALM BUT FIRM IN STAND IN MEXICO; MAY ACT

Large Force of Marines May Soon Leave Mare Island for South; Situation Grows Delicate

SIR EDW'D GREY'S ULTIMATUM HE HINTS AT DRASTIC ACTION

"I WOULD therefore sum up the situation by saying that if the United States thinks it proper to take further steps, either on behalf of its own citizens or of a British subject, we will gladly wait the result. But if for reasons of its own the United States does not think it desirable to take such steps, we must, of course, reserve to ourselves the right to bring about reparation whenever it is in our power to do so."

VALLEJO, March 3.—Orders looking to the movement of 600 marines from the Mare Island yard at any minute are said to have been received here this morning from Washington. Although Commander Bennett is reticent in the matter, it is known that preparations were started for the movement early today.

The matter is deeply significant, according to the belief of local naval officers, in that it may mean a change in the policy of the federal government in dealing with the situation in Mexico. The rumored orders came following news that President Wilson realized that the killing of Benton and other recent occurrences made the situation more acute.

There are enough warships in Mexico now to handle the situation on the Pacific side, according to naval officers. The California, Pittsburgh, Buffalo, Denver, New Orleans, all in Mexican waters now, and the Annapolis and Jupiter, at Mare Island, but available. A number of warships now held at Bremerton are ready for a trip south, which seems to be expected by the officers in charge.

RESERVES RIGHT TO DEMAND REPARATION.

LONDON, March 3.—The British government's view that no immediate action could be taken by it in connection with the deadlock over the investigation into the death of Juarez de William S. Benton was made quite plain today in the House of Commons by Sir Edward Grey, the British foreign secretary.

Sir Edward was, however, equally explicit in pointing out that if Great Britain failed to obtain satisfaction through the United States, the British government reserved to itself the right to procure reparation whenever it was able to do so.

The promised pronouncement on the Mexican situation from the foreign secretary had been awaited anxiously. It was delivered before a keenly interested gathering of the members of the House of Commons. Intense resentment has been displayed throughout the British Isles over what is regarded as the attempt on the part of Carranza, the constitutional leader, to sow discord between England and the United States and also over the repeated delays in the movement.

Business Men of Two Cities Boost Highway

Preparations were completed today for the great Lincoln Highway booster trip, to start Monday morning from San Francisco, to go to the Lincoln Highway, Pacific Coast, and to carry business men of Oakland and San Francisco over the western route of the proposed transcontinental road. The trip will be directed by H. E. Fredrickson, consul at large for the Lincoln Highway, and Joseph E. Coine, state consul and head of the Pacific Coast end of the movement.

The local business men will be headed by former Governor George C. Pardee. At Sacramento the party will be joined by Governor Hiram Johnson and the journey will proceed toward Lake Tahoe. All towns along the line of the road will be stopped at by the big booster party. The party will leave the Commercial Club at 8 o'clock sharp.

Two Injured When Automobile Overturns

Costa and Manuel Cambrá, were badly bruised and shaken up when an auto in which they were seated overturned in attempting to clear a rut at the end of the Hayward car line. The automobile ran into a bank, throwing both men to the road. After the accident the men were removed to the Gonzales home, Bridge street, and were treated by Dr. Nielson.

JUDGE MAY GIVE HIM RELEASE

Graham Indicates He Believes Millionaire Is Competent

Attorney for Guardian to Fight to Retain Control

SAN FRANCISCO, March 3.—Superior Judge Graham today positively and unequivocally indicated his belief in the competency and sanity of Walter A. McCreery, and before nightfall the millionaire will probably come into his money and his estate. Flanked by an array of attorneys, McCreery appeared in court ready to battle. He did not have to make much of a fight, however, to bring the tide of victory his way.

Doctors Milton B. Leonard, and M. C. McClenahan testified to their belief in his sanity and Judge Graham then personally called McCreery to the stand.

The latter told of his condition of health, of his prospects and his intentions, whereupon the court said, "Why not give this man a chance. From my observation of him I am prepared now to make an order restoring him to competency."

Attorney Edward Hohfeld, representing H. H. McPike, McCreery's guardian, made a vigorous protest against the court taking any action. As it was 12:30 and an adjournment was about to be taken, Judge Graham consented to allow the matter to go over until 2:30 this afternoon when it is understood a further battle will be made by Hohfeld.

If McCreery is restored to competency he promised the court never to take another drink.

McCreery's troubles began in May, 1909, when he was confined in an English sanatorium after a series of eccentric actions. They continued progressively until they reached a climax in August, 1912, when he was declared incompetent by Judge Graham and H. H. McPike, an attorney, was appointed his guardian.

In October, 1913, he escaped from Los Muertos ranch, near Hollister, where his guardian had sequestered him, fled to England and last month returned to San Francisco armed with the depositions of prominent British aristocrats that he was competent.

The two San Francisco aristocrats, Drs. C. H. McClenahan and Milton Lennan, appointed by Judge Graham, reported today that he is perfectly sane.

How White Sox and Oaks Will Line Up

Telegrams to THE TRIBUNE today from Paso Robles and Pleasanton revealed the lineup and batting order of the Oakland and the White Sox team No. 1 which will arrive in Oakland tomorrow night in charge of Coach Kid Gleason, prepared to open the spring schedule with the local team Thursday afternoon at 3 o'clock.

The batting order of the visitors and the Oaks will be as follows:

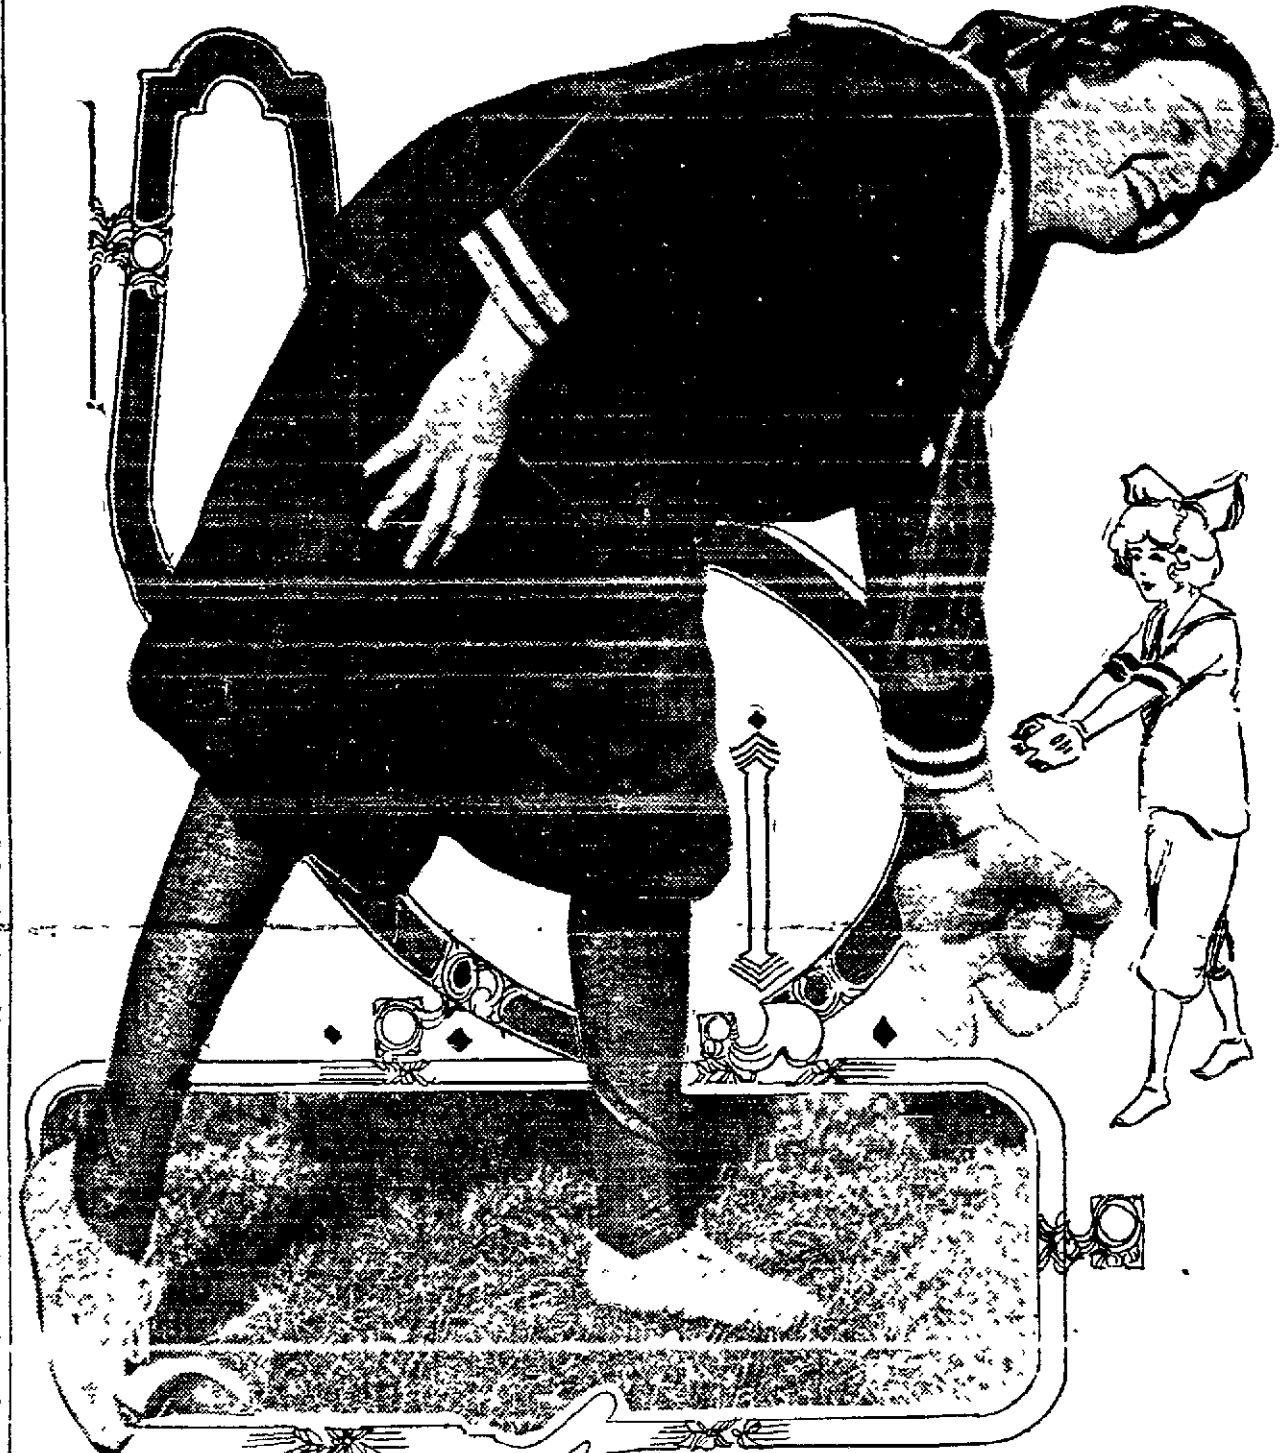

Chicago
Alcock, ss.
Lor, 1b.
Fournier, 1b.
Bodie, cf.
Collins, rf.
Chapelle, lf.
Berzer, 2b.
Schalk, c.
Kuhn, c.
Cicotte, p.
Russell, p.
Lathrop, p.
Johnson, p.
Lester, p.
House, p.

The Oakland club announced today that the prices to be charged at the exhibition games would be the same as those of the regular season. Phyle and Held will be the umpires.

Predicts Universal 2-Cent Postal Rate

PARIS, March 3.—Sir John Henneker, member of the London Convention, pointed out the British Chamber of Commerce in Paris last night, prophesied the introduction of a universal two-cent postage rate within a year. He proposed the abolition of political frontiers through the world for postal and telegraphic purposes and advocated a uniform two-cent telegraph rate in Europe preliminary to its extension to the whole world.

STAR FEMININE BALL PLAYER SAYS GIRLS OUTCLASS BOYS

THIS IS ATLANTA DAY, THE "FEMININE WALTER ALEXANDER," WHO DECLARES THAT GIRLS ARE BETTER BASEBALL PLAYERS THAN BOYS.

REAL ESTATE DEAL SHOWS VALUE RISE

Gore at Broadway and Telegraph Ave. Sells for \$80,000

Further evidence of the rapid rise in real estate values in the northern part of the new retail district is shown by the transfer today of the northern end of the Broadway-Telegraph avenue gore at a substantial advance over the price for which it sold six months ago. The improved lot, having a frontage of 25 feet on Broadway 27 on Telegraph avenue and 80 on Seventeenth street, was sold today by Frank J. Woodward to Percy J. Walker, the well-known Oakland and San Francisco contractor, for \$80,000. It was a cash transaction.

Dynamite is Found Under School Houses

REDDING, Cal., March 3.—Twenty-two sticks of dynamite, with a fuse attached, were found yesterday by an inquisitive schoolboy exploring the foundations of the Lee school, in the town of Mantion, near here.

Manton has been the scene of two previous dynamite outrages. On September 1910, recalled a year later for permitting an "open town" and defeated for election in 1911. This year his supporters are those who effected his recall in 1911.

The hope of James D. Trenholme, Gill's opponent, lies in the residence wars, where an effort has been made to unite the women against Gill.

KISS COSTS MAN 30 YEARS IN PRISON

Threat of Death Proves Expensive to Angelino

LOS ANGELES, March 3.—Convicted of robbery for having stolen a kiss from a white girl, Charles H. Guyton was sentenced today to thirty years in Folsom prison by Judge Willis of the criminal department of the superior court.

The charge on which Guyton, who is a negro, was tried alleged that he held up Miss Daisy Stagwall and relieved her of a dime, all the money she possessed. Then he compelled her under threat of death to kiss him, after which he gave back her ten cents.

Gill's Supporters Are Confident of Victory

SEATTLE, March 3.—The polls opened at 8 a. m. for the city election with light rain falling, but with fair weather promised before noon.

A feature of the close of the campaign was the extraordinary confidence of the supporters of Hiram C. Gill, mayorality 1910, recalled a year later for permitting an "open town" and defeated for election in 1911. This year his supporters are those who effected his recall in 1911.

BASEBALL INTUITION PSYCHIC ADVANTAGE

Novel Ground Advanced in Defense of Game for Girls

The feminine Walter Alexander has been found, and in Oakland, the adopted city of the famed baseball player, the follower in the steps of the mighty catcher is Miss Atlanta Day, who has recently acquired distinction in girl's baseball teams in the Oakland playgrounds. Miss Day can do anything that the famed catcher of the Oaks can do. It makes no difference if the pitcher sends out curve, incurve, spitball—or any other sort of ball, if she once connects with it—good night! That man's out before he gets to first and the same applies to girls, when they bump against the team in which the famous girl catcher is playing.

Miss Day declares that baseball, formerly believed a game only for boys, is in reality a better game for girls, and in proof offers to defeat any boys team the weight of hers.

7500 National Banks in Business

WASHINGTON, March 3.—There were 7500 national banks doing business in the United States at the close of business at the treasury department February 28. Their authorized capital was \$2,014,044,675 with an outstanding circulation of \$753,168,838. Since the approval of the Federal Reserve act in December last 137 state and private banks have applied for conversion to national banks and 88 requests were received from individuals not connected with such institutions, who desired to form national banks.

Avalanche Injures 5 And Wrecks 3 Homes

homes were destroyed and five members of the family of Joseph Blais were injured by an avalanche here yesterday afternoon. The only person to escape uninjured in the three homes was a boy one year old, who was enveloped in the bed on which he was asleep when the avalanche took place. Another child three years old was probably die.

1500 MEN COMING ON FERRY

Police and Deputy Sheriffs at Hand to Prevent Trouble

Will Be Told to Move on by the Authorities of Alameda Co.

SAN FRANCISCO, March 3.—A section of the army of the unemployed, which has reached a total of 2800 men, started on the march to Washington this afternoon, with Oakland as the first prospective stopping place.

Headed by their leaders, and with men taking the places of horses and dragging heavy wagons containing their baggage, the job-seekers left the camp ground at 2 o'clock this afternoon.

They marched out Howard to Seventh, to Market, and thence to the ferry, where they missed connections with the 3 o'clock harbor route boat because of traffic delays on Market street. It is believed that before nightfall the major portion of the army will have crossed to Oakland.

Escorted by a cordon of police, "Kelly's army of the unemployed" will be marched through Oakland to the boundary line, Chief of Police Petersen having ordered that under no consideration should the men be allowed to stop in Oakland.

One of Kelly's lieutenants, in a conference with Petersen last week, agreed to the condition that the men "move on" if they be allowed to touch Oakland on their way to Washington.

COMPANIES ARE 24. There are 24 companies, of 90 men each, and the men have all of the officers of a military regiment except a paymaster.

"General" C. T. Kelly, the commanding officer, announced that he would camp his army the first night on the outskirts of Oakland and then move on. The men paid their fare across the ferry to Oakland—10 cents each.

Before leaving, Kelly ordered his men to burn all the wicks-ups and shacks that had been thrown up on the Howard street lot and to leave the grounds in an orderly condition.

WAVE THEIR HATS. The men marched to the ferry in two battalions, down Market and Mission streets, cheering and waving their hats. Buglers and drummers led the columns.

Major Edward Teesdale, who was released from jail on his promise to leave San Francisco after being arrested for circulating a circular letter threatening Governor Johnson and Mayor W. A. Ithorne who engaged in a fist fight with General Kelly Sunday to decide who had the greater right to command the forces of the idle, were among the marching men today.

L. W. Hill Elected G. N. R. R. President

ST. PAUL, March 3.—Louis W. Hill, chairman of the Board of Directors of the Great Northern Railroad, was elected president of the company at a special meeting of the board of directors this afternoon. He retained the title of chairman of the board ex-officio.

PROTECT BRITONS OR WE WILL, SAYS SIR ED. GREY

Government Reserves the Right to Seek Reparation Outside U. S.

(Continued From Page 1.)

Investigation of the death of Benton. Sir Edward Grey of the British foreign secretary, discussed the Mexican situation in the House of Commons. In reply to a question as to the death of William S. Benton, the British ambassador, Sir Edward said:

"All efforts have failed to produce a satisfactory result. The persistent difficulties put in the way create the strongest presumption of a desire and intention to conceal the truth on the part of those in Mexico, who are responsible for what has happened."

"Communications with the government of the United States are still proceeding, but I would repeat what I said last week, that these communications do not supply the government of the United States with any responsibility for what has taken place, which I mean, of course, the death of Benton."

"While therefore we shall welcome any action that the United States is prepared to take to obtain justice, we have no title to demand as a right that the United States should itself resort to the use of force."

"What can be demanded. One can demand that another government should go to all lengths to get reparation for a crime only when one holds that government in some way responsible for the commission of the crime."

"So far the United States has shown at least as much interest in the death of a British subject in Mexico as it has in the case of a British subject in Mexico. It is understood that several Americans have been killed in Mexico. And the United States has shown every desire to use its influence to obtain protection for British subjects in Mexican territory controlled by those described as constitutionalists."

"I would further sum up the situation by saying that if the United States think it proper to take further steps either on behalf of its own citizens or of a British subject, we will gladly wait the result. But if, for reasons of its own, the United States does not think it desirable to take such steps, we must of course reserve to ourselves the right to bring about reparation where there is an opportunity to do so."

"Our general policy toward Mexico and the Central and South American republics is confined to commercial interests, which we keep within non-political limits. As a rule, therefore, all questions that arise between these republics and ourselves are settled by diplomatic means or can be referred to arbitration."

"But the violent death of a British subject and the refusal by those responsible in Mexico to allow the circumstances to be investigated, make it incumbent upon us to do what we can on our own behalf."

"Assuming that the United States does not itself desire to take any responsibility for intervention, it has been urged on me that we should take immediate action, without, however, giving any suggestion of indication of the action we can take at the moment."

"I must repeat what I said last week—that there is nothing we can effectively do under the present conditions."

"The government in Mexico City has no control over the territory where the death of Benton took place, nor over those responsible for his death. We cannot, therefore, under the present circumstances procure reparation through that government."

"We have no intention of engaging in what on our part would be such a fantastic attempt as the sending of a force—which to be effective would have to be a very large force—into any part of Mexico."

NIGHT BLOCKADE.

"Under ordinary circumstances we might have taken action at a port or on the coast. Under present conditions, if we took such action, it would have no effect, it could only result in giving assistance to the contending party in North Mexico."

"To take action that would positively help those from whom we demand reparation simply for the sake of doing it, to do something, would be worse than doing nothing."

"But we don't intend to let the affair rest and as soon as by any change of circumstances it is in our power to take further action, we shall take whatever steps may be practicable."

VILLA UNRECOGNIZED.

Replying to another question, Sir Edward Grey said that Great Britain had not recognized General Villa as a legitimate authority. He further questioned the statement from Sir Edward Grey that no assurance had been obtained from Provisional President Huerta regarding the protection of British subjects in Mexico.

CABINET HANDLES CRISIS.

WASHINGTON, March 3.—Developments in the Mexican situation today were dependent upon receipt of word from General Carranza, the Constitutional chief, as to whether he insisted upon maintaining the attitude that the United States has no right to inquire into the recent execution of William S. Benton, a British subject.

NEW ELEMENT FACED.

President Wilson and his cabinet in their meeting today were confronted with a new element of the situation since they had now the position taken by Carranza as to foreign governments should not be directly involved in the Mexican situation. Another phase of the situation, however, which seemed attention, was the president's statement that the Mexican situation with Sir Edward Grey, the British minister to Mexico, was a serious one.

SIR EDWARD GREY.

Interview for Sir Lionel with President Wilson. Just what its purpose is has never been revealed.

Interest in the outcome of the Benton incident is apparent in diplomatic circles. Whether Great Britain will insist upon reparation at this time, or will prefer to leave the United States in complications with Carranza was points upon which information was awaited.

TO MAKE ANOTHER EFFORT.

The departure of George C. Carothers, American consul general from El Paso for Nogales was taken to mean that Carranza, who knows Carranza personally, might further explain the American viewpoint. As there have been no announcements on the subject it is not quite certain whether any note has been dispatched to American Consul Smith at Nogales in answer to the two communications received from General Carranza last Sunday, or whether the United States is awaiting the outcome of messages sent to Carranza by his friends here who are familiar with the views of the Washington administration. These friends have been expecting for the last twenty-four hours that they would learn of a change of attitude by Carranza and they pointed to his calling of cabinet meetings and references in press dispatches to a diversity of opinion as likely to mean in the end the influence of the Constitutional chief in the direction of a satisfactory understanding with the United States.

VILLA CLEARS MYSTERY.

CHIHUAHUA, Mexico, March 3.—General Villa today cleared up the mystery as to where the order came from which halted the Benton commission as it was about to leave Juarez last Sunday. It has been credited both to him and to General Carranza, but Villa said the request came from Carranza to him and he transmitted it into an order to the Juarez garrison.

"The Benton case and all foreign relations are now in the hands of the supreme chief and will remain there," said General Villa. The general said he intended to educate forty poor children in the United States at public expense, owing to the demoralized condition of Mexico schools.

The bomb dropping aeroplane and three thousand shrapnels have arrived, he said.

COMMISSION AT SEA.

EL PASO, Texas, March 3.—Members of the Benton investigation commission did not know today whether they were to proceed to Chihuahua or not. They awaited instructions from Washington. Should it be decided to proceed with the investigation the commission will make the trip to Chihuahua on a special train.

Letcher, American consul at Chihuahua, to this city. The commission's interest in the case was not the proposed investigation would reveal the manner of Benton's death at the hands of General Villa.

CARDEN TO MEET WILSON.

WASHINGTON, March 3.—Sir Lionel Carden, Great Britain's minister to Mexico, will confer with President Wilson at 6 o'clock tonight and later will leave for New York to sail for England tomorrow morning on the Olympic.

With Sir Cecil Spring-Rice, the British ambassador, Sir Lionel conferred briefly early today. Secretary Bryan arranged the hour of his meeting with the President.

Secretary Bryan will dine at the British embassy this evening before Sir Lionel leaves for New York.

TOO LATE FOR INQUIRY.

EL PASO, Texas, March 3.—A member of the Benton commission expressed the opinion today that the investigators never would go to Chihuahua to view the body of the slain Scotman.

"This is my personal opinion," he said. "It is not based on official information. Benton was killed on February 17 and this is the 3d of March. The body must be in such a condition by this time that any wound or wounds in the flesh would be obliterated."

FEDERALS REPULSED.

EL PASO, March 3.—A special to the Herald from Nogales gives a report that the federal forces were killed and a number of prisoners taken in a battle at Acuna, state of San Luis Potosi, last Sunday.

General Francisco Carrera commanded the rebels and the federal forces were led by Colonel Quintan. The federal dead included Major Antonio R. Vargas, Captain Gonzales Canale and Lieutenant Benavides.

EXPECT NAVAL BATTLE.

NOGALLES, Sonora, Mexico, March 3.—The first naval battle in the history of the Mexican revolutions was expected today at Nogales, Sonora. Reports received by General Carranza said that the federal gunboats Mazo and Guerrero were off the harbor where lay the gunboat Tampico which recently went over to the constitutionalists.

It was asserted that the crew of the Tampico had much ammunition, and that from the interior of the land locked harbor, it would be easy to fight off the two federal boats which must enter through a narrow channel.

COAST VESSELS MAY CARRY TROOPS SOUTH.

SAN FRANCISCO, March 3.—It became known today that an inspection of three coast passenger liners had been ordered to ascertain their serviceability as transports or auxiliary cruisers. The vessels are the Bear, the Bearcat and the Bearpaw.

Bryan Again Becomes Proud Grandfather

WASHINGTON, March 3.—A new baby girl at Secretary Bryan's home today a conference with the British ambassador and also the cabinet meeting.

Mr. Bryan telephoned his office and the White House that he would be late and announced the birth of a girl to his daughter, Mrs. Richard L. Hargreaves of Lincoln, Neb. Mr. Bryan now has six grandchildren.

TERMINAL RAILWAYS STOCKHOLDERS MEET

Board of Directors Increased From 7 to 9

MEMBERS

SAN FRANCISCO, Mar. 3.—The stockholders of the San Francisco-Oakland Terminal railways which, together with other corporations of the United Properties company, was recently sold to George C. Moore and a syndicate of English financiers, gathered at their annual meeting in the Syndicate building this afternoon. The principal business of the session was the increase of the board of directors from seven to nine members.

Ever since the re-organization of the company under the new management, it has been the belief of the owners that a larger directorate would make for a more complete representation of the varied interests vitally concerned.

It is believed that one of the new directors will be a representative of N. W. Haley and company, which concern has leased to San Francisco-Oakland Terminal railways, \$2,500,000. The F. M. Smith advisory committee, it is understood, will also be represented on the new board.

The board of directors will immediately be confronted with a new problem in connection with the early submission of the railroad commission of the plans of re-organization. It is the desire of all those connected with the San Francisco-Oakland Terminal railways to have the commission approve the deal whereby Moore and his associates have come into control of the company. It is understood that the commissioner will have no objection to the sale providing sufficient actual coin is paid over to liquidate the pressing obligations and place the railroad on a firm footing.

TEACHERS' DON'TS ISSUED BY SAVANT

He Objects to Middy Blouses, Beauty Patches and Kisses

Teachers' beware of the "middy blouse," the "beauty patch" and high heels! Don't come to classes with arms about waists and don't kiss in hallways!

All these habits make very poor teachers, for Professor Frederick Burke of the San Francisco Normal school, declared today. As a matter of fact, his ideas on the subject may be cast abroad through the school departments of the land that the pernicious habits of younger teachers may no longer serve to distract the young and hamper educational progress.

Professor Burke has published his ideas regarding proper composure for teachers in a booklet, "Don'ts for Teachers," which is a guide for normal school students, but which may also serve as a new set of rules for boards of education. Oakland's board has dealt with some of the same problems in times gone by—especially with silk skirts, one of the matters mentioned in the collected views of the professor.

Professor Burke lays down a stern dictum against the following:

Kissing in hallways.

Walking to classes with arms about waists.

Silk skirts.

Low-necked blouses.

Beauty patches.

High-heeled shoes.

Overdressed hair.

"The students in the normal school," says Professor Burke's bulletin—and he also means teachers generally—"teach children and must preserve dignity in appearance. A teacher cannot do her best if she is wearing a silk skirt, a 'middy' blouse or a beauty patch. The girls themselves frown upon overdressing."

WOMAN ACCUSED OF PASSING BOGUS CHECK

SAN JOSE, March 3.—Miss Rosalind Rogers of Concord is in jail here, while the authorities are investigating an alleged worthless check for \$5000 she was tempted to pass on the Milpitas Bank.

The check was drawn on the San Ramon Valley bank of Walnut Creek. Inquiry there shows the woman has no funds on deposit. Miss Rogers said she was to use the money in the purchase of a \$4500 ranch on the Alviso road. She says she does not know just where the ranch is. Miss Rogers is 30 years old.

SET FRENCH ELECTION DATE.

PARIS, March 3.—The cabinet council decided today, on Sunday, April 26, as the date for the general parliamentary elections in France.

Disordered Kidneys Cause Much Misery. "My wife and I were in Paris, sleepless, disturbed, nervous, run-down men and women everywhere are glad to know that Foley's Kidney Pills have been found to be the best remedy for kidney trouble. I suffered with terrible headache, backache and bearing down pains, so bad I was hardly able to get around. I took three bottles of Foley's Kidney Pills and since then I have been entirely well." Sold everywhere.

And the Rose City of the San Francisco and Portland Steamship company. A request for the privilege of inspection has been turned over to G. L. by D. W. Wells, general agent at Portland.

FOUR TRANSPORTS HERE.

The Crook, Buford and Sheridan are used up here. The Thomas is also in port, but is scheduled to sail Thursday.

To Give Recital Young Organist

LOUIS VON HERGET.

Louis von Herget will give an organ recital at the First Congregational church, Twelfth and Clay streets, on Friday afternoon, March 6, at half past three o'clock, and a most interesting program will be given.

Louis von Herget is one of our young musicians who has a future before him. Although only seventeen years old he has been organist of one of the churches in San Francisco for over a year, taking the position when he was barely sixteen.

He is also a fine pianist and will give a piano recital in May at the Oakland hotel. With his music he is also occupied with his English studies and is preparing to enter college, for his aim is to have a well rounded education before he goes abroad where he will study with the great Victor in Paris.

Mr. Wymond B. Garthwaite who will assist, is a talented musician and is the son of Mrs. E. H. Garthwaite, the organist who stands at the head of her profession, and her son inherits her musical talent. He attends the Oakland high school and is a clever boy in all his studies. He is going to college and his future is full of promise. These two young boys are a credit to our city of Oakland, having the purposes and high views of life, their ambitions and ideals being the very best. No admission fee will be charged to the recital. The public is cordially invited.

The Mind Expands As Health Returns

Quick Improvement Is Noticeable When Proper Aid to Nutrition Is Given.

A low state of the general health is now the accepted cause of backwardness in children. So in the case of a backward child it is best to look towards building up its health. It will usually be found that the main trouble is in the food, in lack of assimilation and digestion. The cure should be taken in the kind of food given to the child. This, with plenty of air and exercise, should bring about a change for the better.

Watch the condition of the bowels, to note whether the waste is being passed off or not, or whether it is being passed off too freely. If either condition prevails give a small dose of that gentlest of all laxative-tonics, Dr. Caldwell's Syrup Pepsin. Thousands of mothers will testify to the wonders it has wrought in the lives of their own children, and for that of Mrs. Daisy McBroom, Hillsboro, Ind.

She is never without it in the house. She is the mother of Lucille and has been using Dr. Caldwell's Syrup Pepsin for Lucille since she was two. Mrs. McBroom says it saved Lucille and the family from a family medicine in the McBroom home. It is pleasant to the taste and so perfectly safe that it is given to infants, and yet is equally effective for grown people. All druggists sell it and the price is only fifty cents and

LUCILLE MCBROOM

one dollar a bottle, the latter for families who need it regularly.

Dr. Caldwell's Syrup Pepsin has no equal as a cure for constipation, indigestion, biliousness, headaches, sour

trouble and kindred complaints. It has so many advantages that those who once use it forever after discard cathartics, salts, pills and other coarse remedies, for they are seldom advisable and should never be given to children.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 419 Washington St., Monticello, Ill. A postal card with your name and address on it will do.

PERSISTENCY WINS PHOTO MAUDE ADAMS 'SNAPPED'

This is the Portrait of Maude Adams That Was Won by Persistency.

EDWARD GAIL GETS PERSONAL PICTURE

Follows Pretty Actress East to Obtain His Prize

Edward Gail, fruitvale amateur photographer, has won distinction. The enthusiastic pursuer of camera subjects has caused Maude Adams, who has never before given out a "personal" photograph of herself, to emulate Dary Crockett's cool.

pleas, entreaties and blandishments. She eluded the photographer when he attempted to catch her unaware. Gail went east a short time ago, taking his camera with him. In New York he met Miss Adams again, and unlimbered the camera. Miss Adams, who recognized him, laughed and declared that such persistence as his should be rewarded. She didn't allow him to take the picture—that would be too utter a rout to her dignity—but she handed him one. A professional photographer had taken it, and depicted Maude Adams as Maude Adams. "This," she declared, "is the first personal picture I have ever had taken. So long as you have chased me across the country I guess I'll have to let you have it."

SAFETY OF FALL. SAN FRANCISCO, March 3.—John Osterberg, a hostler who fell from a hayloft in a stable at Nineteenth and Polson streets, February 18, died today from a fractured skull.

WOMEN BOMBARD HOUSE COMMITTEE

'Suffragists and "Antis" Have Wordy War in Halls of Congress.

WASHINGTON, March 3.—Woman suffragists and anti-suffragists had another war of words today before the house judiciary committee over the proposed amendment to enfranchise their sex. The heavy artillery of both sides was brought into action.

"Why can't you amend the constitution so that in various states, on petition of a certain number of voters, the people may have the ballot?" demanded Mrs. Antonette Funk, who with Mrs. Madell McCormick, was in charge of the suffrage speakers. Representative Mendell, Republican of Wyoming, urged the extension of woman suffrage and declared that in Wyoming the women voted in as large proportion as men.

Mrs. Crystal Eastman Benedict told the country would visit their wrath on the Democratic party at the polls if it dodged the issue.

The Democratic party was threatened with the pontifical wrath of the women by other speakers.

Mrs. Mary Beard of New York flatly told the committee that the party which will enter into possession of the government on March 4, 1917, will believe that woman suffrage is a matter of national importance and of transcendent national importance.

E. H. DAMON TO BE SENT TO LOS ANGELES FIRST

SAN FRANCISCO, March 3.—Edmund H. Damon, well to do real estate speculator of New York, arrested at San Luis Obispo for violating the Mann white slave act, will have to be taken first to Los Angeles and then transferred here for trial.

United States Attorney Preston announced today that he would ask for a dismissal of the white slave charges against Frank Corbett and Joseph Schwartz, who accompanied the two women.

ASKS FOR SENTENCE, BUT COURT ADVISES COUNSEL

Insisting that he is guilty and ready to take his punishment, Henry E. Mayhugh, charged with forgery, asked Superior Judge Donahue today to sentence him. The court appointed an attorney to represent the defendant, pointing out that there were technicalities in the case which might be to the benefit of Mayhugh.

CONFIRM DEPORTATION.

CAPE TOWN, Union of South Africa, March 3.—The House of Assembly today by a vote of 72 to 15 adopted the clause in the indemnity bill confirming the deportation recently of some labor leaders because of their connection with the general strike.

HOW TO SAVE YOUR EYES

Try This Free Prescription

Do your eyes give you trouble? Do you already wear eyeglasses or spectacles? Thousands of people wear these "windows" who might easily dispense with them. You may be one of these and it is your duty to save your eyes before it is too late. The eyes are neglected more than any other organ of the entire body. After you finish your day's work you sit down and rest your muscles, but how about your eyes? Do you rest them? You know you do not. You read or do something else that keeps your eyes busy; you work your eyes until you go to bed. That is why so many have strained eyes and finally other eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches, they never cure. This free prescription which has benefited the eyes of so many may work equal wonders for you. Use it a short time. Would you like your eye troubles to disappear as if by magic? Try this prescription: Go to the nearest wide-awake drug store and get a bottle of Optona tablets; fill a two-ounce bottle with water, drop in one tablet and allow to thoroughly dissolve. With this liquid bathe the eyes two or four times daily. Just note how quickly your eyes clear up and how soon

be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment seriously effective in multitudes of cases. Now that you have been warned don't delay a day, but do what you can to save your eyes and you will thank us as long as you live for publishing this prescription.

FEDERAL LEAGUE THREATENS FIGHT

Organized Baseball Is Told to "Keep Off" or Prepare for War.

CHICAGO, March 3.—Word was sent to the presidents of the National and American Baseball Leagues today that the Federal League was prepared to fight for fair treatment and would meet in kind any efforts to lure away players under contract with the new league. In a telegram addressed to John K. Tener, president of the National league, and Ban J. Johnson, head of the American league, President Gilmore of the Federal League threatened the challenge which may result in another baseball war.

The message read: "John K. Tener, Ban J. Johnson—Indisputable evidence tells us that some of your clubs are endeavoring to sign Federal league contract players. If you do not stop such methods immediately we will withdraw our policy of fair play and give you a battle at your own game. (Signed) 'JAMES A. GILMORE'."

DONS HUSBAND'S GARB AND SHOVELS FOR PAY

DENVER, March 3.—Because she was forced to don man's attire and shovel snow to earn a livelihood for herself and her two small children, Maria J. and William, 16 months, Mrs. Margaret Bennings, 30, who made the fare going complaint to Human Officer David, requested the arrest of her husband, Benjamin C. Bennings, for non-support and cruelty to his children.

According to Mrs. Bennings, her husband had not worked since October. She says she was forced to wear his clothes and shovel snow from the sidewalks in the vicinity of her home, 123 Steele street, to earn money with which to buy food for herself and her hungry children.

She declares her husband was cruel to her and the children, often struck her, and threatened to turn them out of the house. Bennings was arrested, charged with cruelty.

SAYS HE IS WIFE'S TARGET; ASKS DIVORCE

LOGANSPORE, Ind., March 3.—Charles O. Bower, Packard engineer, in a suit for divorce, says that his wife, Bora Bower, hit him in the eye with an apple, that she often threw water on him and several times attacked him with a knife. He charged that on Christmas day, 1912, he made a special trip from the end of the line for the purpose of eating dinner at home, but that his wife had not prepared dinner and refused to let him anything to eat. He also says that his wife kept "singing continuously at night and would not let him sleep, causing him to have to lay off frequently."

WEINMANN RULER OF ALAMEDA ELKS

ALAMEDA, March 3.—Alameda lodge of Elks last evening held its annual election of officers, the following being named: Exalted ruler, E. B. Weinmann; esteemed leading knight, J. I. Sogley; esteemed lone knight, R. B. Valleau; esteemed lecturing knight, P. H. Connor; secretary, W. H. Treasurer, Al. Latham; delegates to the grand lodge, H. Stence; delegates to the grand lodge, H. Wood; Elms; alternate, Will B. Wood.

ELGIN HEARING CONTINUED.

CHICAGO, March 3.—Hearing of the Elgin Board of Trade case before Judge Landis in the federal court here may never come up, it was made known today. District Attorney Jas. H. Wilkinson left for New York and Washington today and it was understood that the question of a compromise of the government's case against the alleged improper butter price fixing methods of the Elkin board was the principal object of his trip. The hearing was continued two weeks.

NECK BROKEN THREE YEARS.

ST. PAUL, Minn., March 3.—Walter L. Graham, 24 years old, formerly a student in the University Engineering College, died after having lived for three years with a broken neck. Graham dove from a pier at Lake Minnetonka, and when brought to shore it was found that his neck was broken. Since then he has been cared for at the home of his father, J. B. Graham.

PAINTS ON STAND.

Mrs. Harriet Wilkes fainted on the witness stand in Superior Judge Waaste's court yesterday after she had testified to the cruelties inflicted upon her by Dr. Everington Wilkes and the court awarded her an interlocutory decree of divorce.

BISHOP THOMAS BOWMAN DEAD.

ORANGE, N. J., March 3.—Bishop Thomas Bowman, formerly president of De Pau University, died here today at the home of his daughter. He was 87 years old.

MOTHER-IN-LAW AN "ANGEL."

FOUR WAYNE, Ind., March 3.—Mamma Carr's mother-in-law is not the proverbial kind according to the complaint filed against her by her wife, Luan, who seeks a divorce. The wife says her mother-in-law interfered in her marriage to Mamma and also interfered in her marriage to Luan. She also mentions that her mother has provided most of the money for the marriage and the home, but the money for the marriage and the home, which mother, also mother-in-law, was the "angel."

GOVERNOR GLYNN URGES LAND BANKS' FORMATION

ALBANY, N. Y., March 3.—Legislation to permit the formation of land banks in the state was urged last night by Gov.

legislature. A system of amortization loans, which would be issued by a large central bank, was given strong endorsement by the Governor. He would have the central bank issue debentures to be secured by mortgages placed by savings and loan associations acting as feeders for a central bank. Existing associations as well as those to be organized among farmers

CUSTOM RECEIPTS DROP \$10,000,000

Falling Off for February Most Marked Discrepancy Since New Law.

WASHINGTON, March 3.—Custom receipts for the entire United States for February fell off slightly more than \$10,000,000 compared with the same month of 1913. This is by far the most marked discrepancy in such receipts for the months of 1913 that has been noticed since the new tariff became law.

Although no official explanation was forthcoming it was pointed out that millions of dollars worth of sugar in bond in New York, New Orleans and other ports held for weeks to take advantage of the 25 per cent reduction in duties in force today. Custom officials here, too, called attention to the fact that receipts this falling off the administration counts upon about \$50,000,000 a year from the income tax. They are hopeful that the income tax and the increase expected from the new corporation tax will more than

All receipts for the current month of February amounted to \$43,633,857, compared with \$54,633,857 in February, 1913. The disbursements during the month exceeded the receipts by about \$11,000,000 compared to an excess of receipts for last February of more than \$12,000,000. For the fiscal year to date the excess of disbursements was about \$27,000,000 compared to an excess of receipts for the corresponding length of time last fiscal year of \$6,462,178. The net balance in the treasury's general fund February 23 was \$92,866,541, and the grand total assets \$2,020,158,087.

GRAIN PIT FIGHT AIRED BEFORE HOUSE BODY

WASHINGTON, March 3.—The fight against the grain pits in the Chicago and Duluth boards of trade and the Minneapolis chamber of commerce was aired before the house committee on rules today when delegations representing these markets and the organization of farmers testified regarding the proposed investigation of these institutions. The Manhattan resolution asked for a special committee to investigate the grain pits and the charges of monopoly, especially the control that large dealers have over prices by concerted bidding in the pit and by their control over grain in public warehouses and terminal elevators.

The hearing, which excited considerable interest in the middle west and northwest, began with active support evident from the Farmers' Co-operative Elevator associations of the Dakotas, Minnesota, Wisconsin, Iowa, and Illinois, and other states. The local farmers in grain in Chicago, Minneapolis and Duluth, whom the farmers oppose, were ready to present their side of the case.

NAVY TO EXPERIMENT WITH OIL RANGES

WASHINGTON, Feb. 3.—Because oil ranges are much cheaper and cleaner than coal ranges, the navy department is having them installed in the galleries of the Pennsylvania and the battleship "Oklahoma" under construction, for cooking purposes. This department announced today that it had decided on the oil range after it had experimented with various other types. This step is in line with the department's policy of using oil instead of coal for fuel in its latest ships. Besides being more economical and cleaner, the department pointed out, there is a decided advantage in cooking with oil on a battleship that burns nothing but oil in its main boilers as do the two battleships now being equipped. The cost of the cooking by the different methods was found to be about as follows: With an electric range, \$22.50; with a coal range, \$16.10, and with an oil range, \$5.65.

SLAYER CONVICTED; TO FACE ELECTRIC CHAIR

NEW YORK, March 3.—Oreste Shillito, a 32-year-old Italian, was convicted of murder in the first degree last night by a jury which tried him at the city hall. The jury found him guilty of the murder of William Heaner, a 32-year-old Italian, on the night of March 3, 1913. Charles Teas, another policeman, and John Rizzo, a citizen, were killed by Shillito a few seconds before he fired at Heaner. The convicted man is 32 years of age and has five prior convictions to his record. He will be sentenced to death in the electric chair next Friday.

CHINESE REBELS PEDDLE UNAUTHORIZED BONDS

WASHINGTON, March 3.—Through the American legation at Peking, the Chinese government has issued a notice that rebel agents are putting on the market unauthorized bonds purporting to belong to the recent issue of the 5 per cent Nanking military loan.

HOUSEWIVES HOLD EXHIBIT.

CLEVELAND, March 3.—All the devices known to modern scientific housekeeping are on exhibition today at Central Armory here, being a part of the second annual American Woman's Exposition. Contrast between the task of the housewife twenty-five years ago and today is shown. Now the vacuum cleaner has replaced the broom; the old method of breakfast preparation by the score of electrical appliances for preparing of coffee, toast and eggs, together with ironing and heating apparatus that has reduced the housewife's labor fifty per cent. The exhibits will be changed daily.

Stork and Cupid Cunning Plotters

Many a New Home Will Have a Little Sunbeam to Brighten It.

There is some dread in every woman's mind as to the probable pain, distress and danger of child-birth.

But thanks to a remarkable remedy of *Dr. J. B. Schafhirt*, the period is one of joyful anticipation.

Mother's Friend is a penetrating, external application. It makes the muscles of the stomach and abdominal organs expand easily and naturally without pain and with none of that peculiar nausea, nervousness and other symptoms that tend to weaken the prospective mother. Thus Cupid and the stork are rated as cunning plotters to hasten the coming of a new sunbeam to gladden the hearts and homes of mothers.

Thousands of women know from experience Mother's Friend is one of our greatest contributions to happy motherhood. Sold by all druggists at \$1.00 per bottle. Especially recommended as a preventive of caking breasts.

Write to *Bradford Regulator Co.*, 231 Lamar Bldg., Atlanta, Ga., for their valuable book to expectant mothers.

SON OF ROMAN SENATOR SOUGHT

Wanted on Charge of Embezzling \$5000 at Los Angeles.

LOS ANGELES, March 3.—Efforts today to ascertain the whereabouts of Constantino V. Ricardi, said to be the son of a Roman senator, and well known locally as an attorney, were unsuccessful and the authorities now believe he is on the Atlantic coast, headed for Rome.

Ricardi was charged with having embezzled \$5,000 from William E. Shaw, in a warrant issued by the district attorney. Besides this offense, it was said the federal authorities were searching for him on a charge of violating the Mann white slave law. The public believe Ricardi left Los Angeles owing thousands of dollars to various firms, and that he swindled many poor Italian families. The grand jury will be asked to return indictments against him on these charges if it was said.

SCARLET FEVER EXODUS CEASING AT U. OF ILL.

CHAMPAIGN, Ill., March 3.—A majority of the students who fled because of scarlet fever at the University of Illinois returned yesterday. Dean Clark reported an attendance of 80 per cent at classes, against 50 per cent on Saturday. The public schools here reopened and quarantine on a number of houses was lifted.

The Quickest, Simplest Cough Remedy

Easily and Cheaply Made at Home. Saves You \$2.

This plan makes a pint of cough syrup—enough to last a family a long time. You couldn't buy as much or as good cough syrup for \$2.50.

Simple as it is, it gives almost instant relief and usually conquers an ordinary cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and an excellent tonic effect. It is pleasant to take—children like it. It is an excellent remedy, too, for whooping cough, spasmodic croup and bronchial asthma.

Mix one pint of granulated sugar with 1/2 pint of water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (five cents' worth) in a pint bottle, and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

Pinex is one of the oldest and best known remedial agents for the throat membranes. Pinex is a most valuable concentrated compound of Norway white pine extract, and is rich in quaiacal and other natural healing elements. Other products will not work in this combination.

The prompt results from this mixture have endeared it to thousands of housewives in the United States and Canada, who explain why the plan has been imitated often, but never successfully.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

How Thin People Can Put on Flesh

A New Discovery.

Thin men and women—those big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained a weight one ounce. That food passed through your body like unburned coal through an open grate. The material was there, but your food doesn't work and the plain truth is you hardly get enough nourishment from your meal to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation, are sadly out of order.

Cut out the foolish foods and funny sadistic diets. Omit the flesh cream and flesh stays put. Sargol tablets are a scientific combination of six of the best flesh-producing elements known to chemistry. They come 40 tablets to a package, are pleasant, harmless and inexpensive, and Osgood Bros. drug stores, and all other druggists in Oakland and vicinity sell them subject to an absolute guarantee of weight increase or money back.

HUNGARY WITHDRAWS FROM STEAMSHIP POOL

VIENNA, March 3.—The Hungarian government is about to withdraw from the steamship pool agreement demanding stricter conditions for emigrants proceeding to the United States, and also that Plume be allowed a higher percentage of the emigrant traffic than is given the port under the existing arrangements. It is probable that a new pooling agreement will be made by the steamship companies embodying the government's wishes.

10,000 FARMS "AT SCHOOL"

EAST LANSING, Mich., March 3.—Ten thousand Michigan farms today are deserted by their owners and managers who are here to take a week's course in scientific agriculture at the Michigan Agricultural College. The entire institution was turned over to the farmers and their wives for the one-week course, with M. A. C. professors in charge. Special courses for women, a new feature, attracted a big enrollment. Instruction was given the farmers' wives on such subjects as "Identification of Fabrics," "Detecting Adulteration," "Care of Children," "Home Decorations," and "Physical Exercises for Women."

FEW MOMENTS! NO INDIGESTION OR SICK STOMACH-- PAPE'S DIAPEPSIN

Digests All Food, Absorbs the Gases and Stops Fermentation at Once.

Wonder what upset your stomach— which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt, if you are gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take Pape's Diapepsin, and in five minutes you will wonder what became of the indigestion and distress. Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps the stomach regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin, which costs only five cents for a large bottle. It is a truly wonderful—it digests food and sets things straight, so gently and easily that it is astonishing. Please don't go on and on with a weak, disordered stomach; it's so unnecessary.

WILL C. WOOD DEFENDS CALIFORNIA HIGH SCHOOL

SACRAMENTO, March 3.—That the

rather than the backward look, and that it is serving a greater purpose than heretofore, is the declaration of Will C. Wood, state commissioner of Elementary schools, in a statement issued today.

Commissioner Wood, who was formerly superintendent of the Alameda city schools, prepared the statement covering the arraignment by President Burk of

done in the past, it no longer dominates the high school courses of study in California. It no longer requires Latin for admission. It requires 45 units of work, only 15 of which are prescribed. Of the remaining 30 units, 15 are purely elective and 15 are elective within groups of studies. Surely, these requirements are liberal enough to allow any high school to become a self-directing institution.

Hot Tea Breaks A Cold--Try This

Get a small package of Hamburg Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a teaspoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.

"CHINESE HONEYMOON" STAR ASKS DIVORCE

NEW YORK, March 3.—Alexander Dow, inventor and clubman, was named as defendant to day in a divorce action by Maud Furniss, former leading woman in "The Chinese Honeymoon." She married Dow after his engagement to Pauline Chase, the "Pink Pajama Girl," had been broken.

HORRID PIMPLES KILL DIMPLES

But Stuart's Calcium Wafers Will Remove the Unsightly Blemishes in So Short a Time as to Seem Almost Impossible of Belief.

The crowning beauty of a woman is her skin. She may have only ordinary features or even a coarse, heavy contour of face, but if she is the possessor of a fine, colorful skin showing vigorous health and a pure blood, she will grow attractive to every eye.

The girl, "Betty" has a pretty face and cute dimples, but the pimples are horrid.

The man: "Stuart's Calcium Wafers would remove them in a jiffy."

The great trouble with the majority of women is that they try to remove pimples by outside treatment, such as massages, face powders, electricity, etc. These methods will not cure nor even temporarily remove pimples and facial disfigurement.

The difficulty generally impure blood. The blood is a stream of waste matter and filled with poisons. Its color is black or blue or brownish cast, instead of ruby red as it should be.

Stuart's Calcium Wafers go into the stomach with the food you eat. They become a part of the blood and they go wherever the blood goes. You can thus see that these pleasant little wafers filled with cleansing power seek out the very impurities in the blood and quickly remove them from your system.

They open the pores and the tiny canals leading to the pores. This action permits the blood to cast off its load of dead matter and in doing so there is no stagnation and consequently no discoloring of the skin.

The best color always comes in youth of course, but all the cosmetics in the world will not bring back the color if your blood is diseased or filled with impurities which it cannot remove or throw off.

Go to your druggist whenever he may be, and he will give you a box of Stuart's Calcium Wafers, price 50c.

OLD-TIME DOORKEEPER AT NAVY DEPT. DIES

WASHINGTON, March 3.—With a record of thirty-seven years of faithful service to his credit as a messenger and doorkeeper in the office of the Secretary of the Navy, during which his superiors became very much attached to him, William H. Wilkes, aged 71, died here last night.

He was one of the oldest of government employees and had received many testimonials from secretaries of the

Theodore Roosevelt while he was assistant secretary of the navy and recently a friend recalled this to his attention. Wilkes replied:

"I pray for Mr. Roosevelt three times a day."

Wilkes enlisted in the navy when a youth and saw service at sea. He had cruised with many of the most prominent men in the navy.

and Banqueted by National
Geographical Society.

WASHINGTON, March 3.—Colonel George W. Goethals, builder of the Panama canal, will be the guest of honor and receive the National Geographic Society's special gold medal at the annual banquet of the society here today.

President Wilson will present the medal and Secretary Bryan will be toastmaster. More than seven hundred guests are expected to be present, including members of the diplomatic corps, government officials, scientists and others. French ambassador Jusserand will be notified ambassador of his election as an honorary member of the society.

The medal to be awarded Colonel Goethals is the third of its kind to be granted by the society, those already having received it being Robert Peary and Captain Roald Amundsen, the explorers. The inscription on the medal to Colonel Goethals reads:

"This special medal of the National Geographic Society is awarded to George Washington Goethals to whose ability and patriotism the world owes the construction of the Panama canal."

**JAPANESE MISSIONARIES
TO DESCRIBE ACTIVITIES**

Dr. George Watson of Los Angeles, Rev. C. E. and Mrs. Cowman and E. L. Kibbourne of Japan, will speak Tuesday evening, March 3, in Penedel hall, 483 Seventh street, between Broadway and Washington streets. Mr. Cowman, president of the Oriental Missionary Society, will give a brief description of their work in Japan and Korea. This will be Dr. Watson's last meeting before sailing for Orient for a six months' campaign throughout Japan and Korea.

**FEW FOLKS HAVE
GRAY HAIR NOW**

Well Known Local Druggist
Says Everybody Is Using
Old-time Recipe of Sage Tea
and Sulphur.

Hair that loses its color and luster, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 40-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and luster and gives it an appearance of abundance.

**SEEK MAN WHO
ATTACKED GIRLS**

Three Assaults Made, Presumably by One Fiend;
Police Search.

A brutal attack made upon three girls within the past forty-eight hours has aroused the police and a thorough search is being made for the young man who is alleged to have perpetrated the outrages. Two of the girls were under 9 years of age. The attacks occurred at different times and places, but the descriptions given by the victims of a man about 37 years of age, well dressed, in a blue suit of clothes and wearing a white handkerchief around his throat, tally in all instances.

Mary Meveira, 7 years of age, was approached by the man about 6:40 o'clock last night near the Bates rock quarry, which is not far from her home. At the time she was with her little brother,

and attacked the little girl. Her screams sent her brother, Albert, in search of help, and his father, Jason Meveira, who is a watchman on Reilly's Spadina property, ran to the scene. He found the girl in an unconscious condition, her clothing torn and her body bruised.

Lorraine Ryrd, 9 years of age, was attacked about two hours later by the man, who accosted her near her home 2445 Ellis street, and gave her a nickel. The child's screams saved her from serious injury.

The same man is believed to have attacked 19-year-old Margaret Meveira, an aunt of Mary Meveira, Sunday night near the Bates rock quarry. The girl fought him off and the matter was not at the time reported to the police.

**BERKELEYAN INJURED IN
MOTORCYCLE ACCIDENT**

SAN FRANCISCO, March 3.—Louis Testau, a blacksmith of 1818 Stewart street, Berkeley, and George Estelle, aged 16, of 618 Fell street, were injured in a motorcycle accident at Eighth and Market streets at 8 o'clock this morning.

Testau was walking across the pavement when Estelle struck him. The latter was riding at a rapid clip on his motorcycle. The machine was smashed and both men were thrown in a heap near the curb. Testau suffered a lacerated nose and an injury to his forearm and Estelle's arm and side were hurt. Both went to the Central Emergency Hospital.

While driving his wagon in the car tracks at Beale and Market streets, James Fatima, 346 Third street, was thrown to the street when a car crashed into the vehicle. He suffered a lacerated forehead and bruises of the body which were treated at the Harbor Emergency Hospital.

On September 18, 1911, the tax collector came upon the dog tied in McPhail's yard, and asked that a license be secured. McPhail refused the request, and during the course of a legal battle which was waged in three courts, the dog died, and McPhail was twice jailed. He continued the case, however, and five prominent attorneys were engaged in the suit. In court yesterday twenty authorities on the statutes of dogs were cited at the conclusion of which McPhail was fined \$20 and costs.

**STATUS OF DOG ON AND
DOG OFF CHAIN SETTLED**

DENVER, March 3.—An extended controversy involving the legal differential between a dog on a chain, and a dog off was ended when Dunbar McPhail, a Denver attorney, lost his suit in the supreme court to keep a dog without a license.

On September 18, 1911, the tax collector came upon the dog tied in McPhail's yard, and asked that a license be secured. McPhail refused the request, and during the course of a legal battle which was waged in three courts, the dog died, and McPhail was twice jailed. He continued the case, however, and five prominent attorneys were engaged in the suit. In court yesterday twenty authorities on the statutes of dogs were cited at the conclusion of which McPhail was fined \$20 and costs.

**DR. LUCAS TO LECTURE
AT BABY HOSPITAL**

The second of a series of addresses delivered by Dr. William Palmer Lucas, of the department of pediatrics, of the University of California, before the members of the Baby Hospital Association, will be delivered tomorrow morning at the hospital, Fifty-fourth and Dover streets. The building is well under way and will be available in the not distant future for the reception of children up to the age of five years. The clinic, however, is in operation at the present time, and a visiting nurse is in attendance, who instructs mothers in the care of their babies and in the preparation of their food. The lecture will be open to the public.

Easter
Millinery**

A Large and
Exceptionally
Early Showing

A word about millinery at this early date will not be found amiss, especially when the unusual conditions of the present season are explained. This season differs from all others we have encountered.

It is almost an imperative necessity to buy or select the hat this year before buying the costume. The styles are unusual and follow what may be termed periods such as Colonial and others of like sequence. Furthermore, the colorings, while exquisite and tasteful in themselves, do not blend well with a large number of costumes as has heretofore been the case.

Periods must be adhered to in selecting the costume to go with the hat, and above all care must be taken to avoid a clashing of shades. Our saleswomen are fully informed as to what is considered correct and many a disappointment may be avoided by looking over our stock of millinery before a selection in costume is made.

With a reasonable amount of care and thought the millinery of the present season will be found far more artistic and attractive than that of any past season we can recall.

Our stocks are already large and we believe we are a full month ahead in styles of any other house in the city. It is a pleasure to show our models whether you have any intention of buying of us or not.

CLAY at 14TH and 15TH**SOLOMON DERBY
DOG RACE ENDED**

Fred Ayer Winner in the Snow
Trail Competition From
Nome.

NOME, Alaska, March 3.—Fred Ayer finished first in the Solomon Derby dog race that was run from Nome over the snow trail to Solomon and returned yesterday. John Johnson, winner of last year's derby, was a close second with his team of Siberian wolves and finished two minutes after Ayer.

The five teams that entered the race started under clear skies from Nome at 10 o'clock yesterday morning, but a wind and snow storm that reached the proportions of a blizzard developed as the race progressed and the heavy going destroyed chances of lowering time records of other years. Ayer finished the course of 64 miles in 6 hours, 30 minutes, 4 seconds. Johnson's time last year, which fixed the record for the course, was 6 hours, 47 minutes, 24 seconds.

Other entrants in the race were A. A. (Scotty) Allan, driving a team of Malamutes owned by himself and Mrs. E. Darling of Berkeley, Cal.; Fay Jensen, winner of last year's \$12,000 mile All-Alaska Sweepstakes, and driving dogs owned jointly by himself and Russell Bowen, and Percy Blatchford.

The Solomon Derby is the first of the season's classic dog races. The race, the All-Alaska Sweepstakes, will be run in April.

**S. P. RAILROAD HEADS
CONFER ON UNMERGING**

SAN FRANCISCO, March 3.—President William Sproule of the Southern Pacific and William F. Herrin, vice-president, are in New York, and it is generally assumed that they are in conference with Julius Kruttschnitt and members of the executive committee relative to preparations for the dissolution suit filed at Salt Lake two weeks ago. Attorney-General McReynolds, who filed the action for separation of the Central Pacific and Union Pacific, has not yet fixed the date for trial, but announcement to this effect is expected at an early date.

It is probable that there will be assembled, from the Atlantic and Pacific coasts, one of the greatest aggregations of legal talent ever called together by a single court proceeding. The general outline of defense is expected to be arranged during the visit of Sproule and Herrin at the Eastern headquarters of the Southern Pacific.

VALLEJO NEWS**ROCK SOON TO BE

Mare Island Channel Obstruction
Attacked by Dredging
Company.

VALLEJO, March 3.—The work of removing a portion of Communication Rock from Mare Island straits is at last under way and with in 60 days the worst obstruction in the channel will be a thing of the past. At 5 o'clock yesterday afternoon the North American Dredging company's big suction dredger commenced attacking the rock and shortly afterward portions of the historic old ledge were being deposited inside the retaining fence which has been built just east of the gas works.

The dredger is now working on the east end of the rock close to the long-itudinal dyke. The center of the rock will be cut down to 20 feet at low tide. In all 100,000 cubic yards of material is to be removed from the channel obstruction.

For 100 feet on each side the rock will be cut down to 20 feet at low tide. In all 100,000 cubic yards of material is to be removed from the channel obstruction.

MARE ISLAND NOTES

MARE ISLAND, March 3.—Mare Island officers were somewhat surprised when they read the Washington dispatches that the naval appropriation bill reported to the House from the naval committee on Saturday did not provide for one of the two proposed battleships to be constructed in a navy yard.

The station officials are of the opinion that the item in the bill will be changed by the House to read that one ship be built in a government yard and the other at a private shipyard. If the bill is changed as above, Mare Island stands a splendid chance to land the dreadnaught contract.

According to an official report given out by the yard officers, the repairs on the submarine tender Alert are practically completed. The work on the Scutella will be finished Wednesday, while the diver F7 should be ready to leave the yard not later than the 15th inst.

The work on the Castro will be completed on the 20th inst. and the Annapolis will be ready to depart for Mexican waters again on the 24th inst.

The date for the completion of the repairs on the divers F1, F2 and F4 has been extended into April. The Hopkins work will be finished early in May. The date for the completion of the repairs

THE CALL OF THE PEOPLE

The political situation in this State is unique. The primary campaign is right at hand. For the great office of United States Senator the two minority parties have had their candidates selected for them—Mr. Rowell, selected by the Fresno Republican; Mr. Heney, selected by Mr. Kent, with the incidental, but highly uproarious approval of Mr. Heney; and Mr. Phelan, selected by Mr. Phelan. So far as we have observed, neither of these nominations has caused any considerable portion of the populace to tear their shirts in a mad outburst of enthusiasm. But still the minority parties have been thoughtfully provided with candidates, and it is for them to decide which one they object to the least.

In the meantime the majority party—composed, as the registration books clearly show, of the majority of the whole people of the State—has had no candidate selected for it and proposes not to have any candidate selected for it. The Republican party thinks for itself. It does not require Senatorial candidates, made while you wait, either by a secret caucus in a hotel or an elimination dinner in a fashionable club.

The voters of the Republican party will select their own candidate, in the only proper way for self-respecting citizens to make such selection, by the unanimous voice of the majority, calling upon the candidate to accept their votes, and not by the voice of the candidate begging that the votes be given him.

We say this with confidence, because that voice is now making itself heard. The will of the party is clearly manifest in advance of the primary. It wants but one man to be the candi-

date for its suffrages for Senator at the polls in November.

THAT MAN IS THE HON. JOSEPH R. KNOWLAND.

With him leading, victory is certain. And we shall have something far better than mere party victory at the polls. We shall have the State ably represented in the Senate of the United States.

The obligations and functions of a Senator are far different from those of a Representative. The member of the lower House directly represents the people of his district and indirectly represents, as a unit in the whole, the people of all the States, in their capacity as citizens. The Senator represents the State in its sovereign capacity. He is its ambassador. With his voice it speaks as a sovereign commonwealth among other sovereigns. There necessarily attaches to his utterances and to his actions a heavy weight of responsibility.

The commonwealth of California cannot afford to send weak or untried men as its ambassadors. Its sovereignty must not be represented by experiments. The ambassador of this State must be a man acquainted with national politics, trained in the school of actual experience—a man who has been tried out who has made good. Such is the firm belief and fixed opinion of the majority of the voters of the Republican party.

Mr. Knowland has been tried. He has made good. He has been to the school of Experience. And he has kept on learning. He was a bright and capable young man when given his first office. He is now a bright and capable older man, with the added breadth, the added judg-

ment, the added knowledge which comes to all men with years of service. There is not a man among all the candidates of all the parties who is the equal, or any man near the equal, of Joseph R. Knowland in ability, in experience or in the record of things done for the common good.

Confident of victory, vigorous in its renewed youth, anxious as to its leadership, the Republican party demands that Mr. Knowland be its candidate. It wants no other. It means to have no other.

The call of the State is clear, emphatic, unmistakable.

“Our Joe” cannot refuse to hear that call. He is too good a soldier to be deaf when the bugles are calling on every Republican to rally to the colors. It is not a question of his own preferences, of his own ease, of his own likes. We want him in the fight and we want him out in front. We’ll keep him there until the battle’s over and won.

It is the people who are calling for Joe Knowland—not simply Republicans. Thousands of Democrats and Progressives are as eager to follow his banner as are the men of his own political faith. It is the people, the people, the people that want Joseph R. Knowland to be California’s Senator.

His part is easy. All he needs to do is to say yes. The people will do the rest.

You must say that yes, Mr. Knowland. You must, indeed. It is the call of your own people, you know. They want you. They mean to have you. You must say yes. There’s nothing else to do, Senator.

How does that last word sound to you, Joseph?

More Farmers Wanted.

During the last thirty years there has been a progressive decline in the volume of farm labor in this country and in Europe. In France the shortage now amounts to a million of farm laborers. In Germany it is more than that. From Italy comes the same story; the land people there have migrated in large numbers to the United States, apparently to escape from farm life, they congest in our cities when they come, and seek other employments and opportunities than farming.

It is no remedy for this condition to point to the educating of the scientific farmer. To farm at all, by science or the rule of thumb, somebody must plow and plant at seed time, and gather the crops at harvest by hard and sweaty toil.

There is before Congress a bill, the purpose of which is to use among the people of the United States useful and practical information on subjects relating to agricultural and home economics and to encourage the application of the same.

This bill is drawn by Senator Hoke Smith of Georgia, and its terms are such that the southern legislatures will restrict the appropriation and its benefits to the white people only, excluding negroes.

In addition to this exclusion “the progressive farmer” is advocating a law to prevent negro farmers owning agricultural land and unless a majority of the people in any community give assent by a vote.

The Smith bill has pending an amendment extending its benefit to the negro race. It is almost unthinkable that so large a laboring class as the negroes should be put under such disability these measures propose. It is the part of wisdom to encourage the negro to be a farmer, to make him an intelligent farmer, to increase his productive power and to freely permit his ownership of farm land, when his intelligent industry has earned the means.

On such a policy his future good order, obedience to the law, good morals and place in southern communities depends. The youth has a vast store of farm labor in her negro population. It should be lured to the country, to the land, and the better informed it is the greater will be its productive power.

The foregoing states the economic considerations involved. The humane considerations will occur to all thoughtful persons. An amendment to the Smith bill should be a part of the law if the bill passes.

FAME'S PATHWAY

Mrs. Philip M. Lydig of New York, who intended to spend the winter in the south of France, has been obliged to postpone her departure from London on account of her ill health. She is now staying in a London hotel, but is about to leave an apartment for the season.

A recent count of the automobiles of Berlin disclosed the fact that the Kaiser owns 26 cars, all reserved for his exclusive and private use. Twenty are kept in Berlin or Potsdam and six at other places.

Inquiry shows that nearly every European queen capable of earning her own living. Mary of England as a painter in water colors and as a dressmaker, the Kaiser as an art photographer, Wilhelmina of Holland as a miniature painter and a poet.

Maud of Norway, who writes under the pen name of Graham Irving, as a playwright, Lockbinder and a painter, and “Carmen Sylva,” queen of Rumania, as a poet.

Some folks would look for happiness with a lantern when the sun is shining. It is easy to convince a man that honesty is the best policy—if it pays better.

20 YEARS AGO TODAY

Ex-President Harrison and party arrived at the Oakland mole en route to Palo Alto. The ex-President was accompanied by his daughter, Mrs. J. R. McKee, and her two children, Benjamin and Mary, and Rev. M. L. Haines, who is the guest of General Harrison on the trip. E. R. Tibbitts, private secretary of the ex-President, was also with the party. When the train pulled into Oakland General Harrison smiled and said: “I guess I will have to make my peace with the people of Oakland.” He recalled the time when he made the flying trip through Oakland. The party was met at the pier by Judge Morrow, Judge McKenna, David Starr Jordan and a few other friends.

The engagement of Miss Harriet Fillmore to Seaton Rich of New York is announced. Miss Fillmore is a granddaughter of Mr. and Mrs. L. Fillmore of Oakland.

"Is it not ridiculous to make as great a fuss as the senior women did about a crew of freshmen who were on the campus and then to allow, yes, participate in, such furious reverts just outside the campus? If that is all right, people should square themselves and let the men to enjoy themselves in the city in a manner quite disapproved of in Berkeley. That is the logical conclusion.

"The moral of the story of the 'dansen' is the thing must be deplored."

The dissembling is a much greater moral offense than any amount of progress dancing, they could possibly indulge in. There is but one conclusion to be drawn. Nine-tenths of All Stomach Trouble Said
to Be Due to Acidity

A Physician's Advice on Cause and Cure

A famous physician whose successful researches into the cause and cure

stomach and intestinal diseases have earned for him an international reputation, said in the course of a recent lecture that nearly all intestinal troubles, as well as many diseases of the vital organs, were directly traceable to a disturbed condition of the stomach which

turned was due nine times out of ten to excessive acidity, commonly termed sour stomach or heartburn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers. It is dangerous to

stomach ulcers. It is interesting to note that it concerns the use of patent medicines as well as of medical treatment for the stomach, stating that he and his colleagues have secured remarkable results by the use of ordinary bisulphated magnesium, which has neutralized the acidity of the

BLESSINGS OF PERSPIRING FREELY

By LILLIAN RUSSELL

EVERY one should have a good sweat bath at least twice a week. Nothing is more health giving and beautifying to the skin and complexion than free perspiration. I have had so many letters from girls who say they suffer from perspiration that I must take this opportunity to answer all of them.

If you exercise your body by strong indoor exercise or brisk outdoor walks, you will find that the body fairly glows with heat; then get into a tub of warm water in which a pond of epsom salt has been dissolved. Lie in the water ten or fifteen minutes, then run the cold water in the tub at the same time the warm water is running out, so that the body will be cooled and the water is perfectly cold; then dry thoroughly and powder with a borated talcum powder.

You will find that dancing, walking or any other form of light exercise will not bring out that offensive perspiration which embarrasses you so much. It is natural and healthy to perspire a little when dancing, but there should be absolutely no odor connected with it.

Naturally your linen must be immaculate and your dress shields should be changed daily. There are delightful little sachet bags that cost a mere nothing which, when placed inside the corset and sleeves of the gowns, emit only a delicate odor or heliotrope or lilac. But no artificial odor can hide the natural odor of neglect.

If you cannot exercise you should take Turkish baths or sweat baths of some kind. Secretions will collect in the pores of the skin, such as blackheads and pimples if the pores are not allowed to perspire freely.

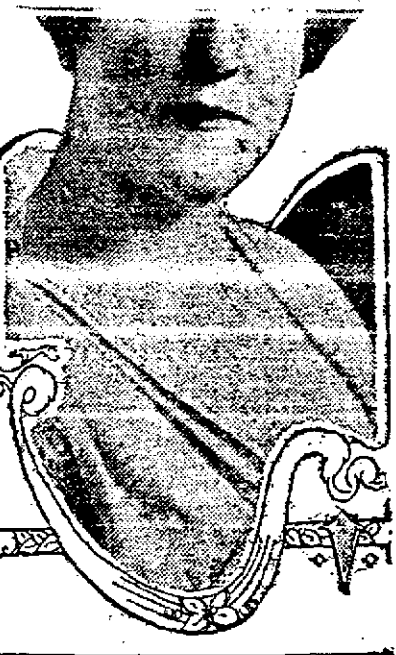

Remember—no ordinary baths will take the place of sweat baths.

ANXIOUS—You have probably injured the skin by pulling out the little hairs. Better leave it alone. Don't tamper with it if it grows larger consult your physician. It will probably disappear in a short time.

the proper care of them? I would suggest that you go to a good dentist and have him remove the spots. Of course the teeth should be brushed every day. You cannot expect to get them clean without brushing them. In the morning upon arising they should be brushed with a good brush, not very stiff, and a good tooth paste or powder. After each meal they should be brushed with clear water. It does not harm the teeth to brush them. Always brush the teeth up and down, not cross ways. I am sorry, but I cannot give names of tooth pastes and powders to my readers. There are several good ones on the market. You might ask your dentist which he considers the best.

MARGARET—No wonder your hair has become dry, lifeless and coarse. This always happens when a dry shampoo is used constantly.

A dry shampoo should never be used on the hair if one can help it. First of all give it a good shampoo. Then massage your scalp and use a good tonic on your hair. This I am sure will bring your hair back to its former condition. It is much better to have too oily hair than dry, lifeless hair. I shall be glad to send you the formula for hair tonic, with instructions for scalp massage and formula for a good shampoo, if you will send me a stamped, addressed envelope.

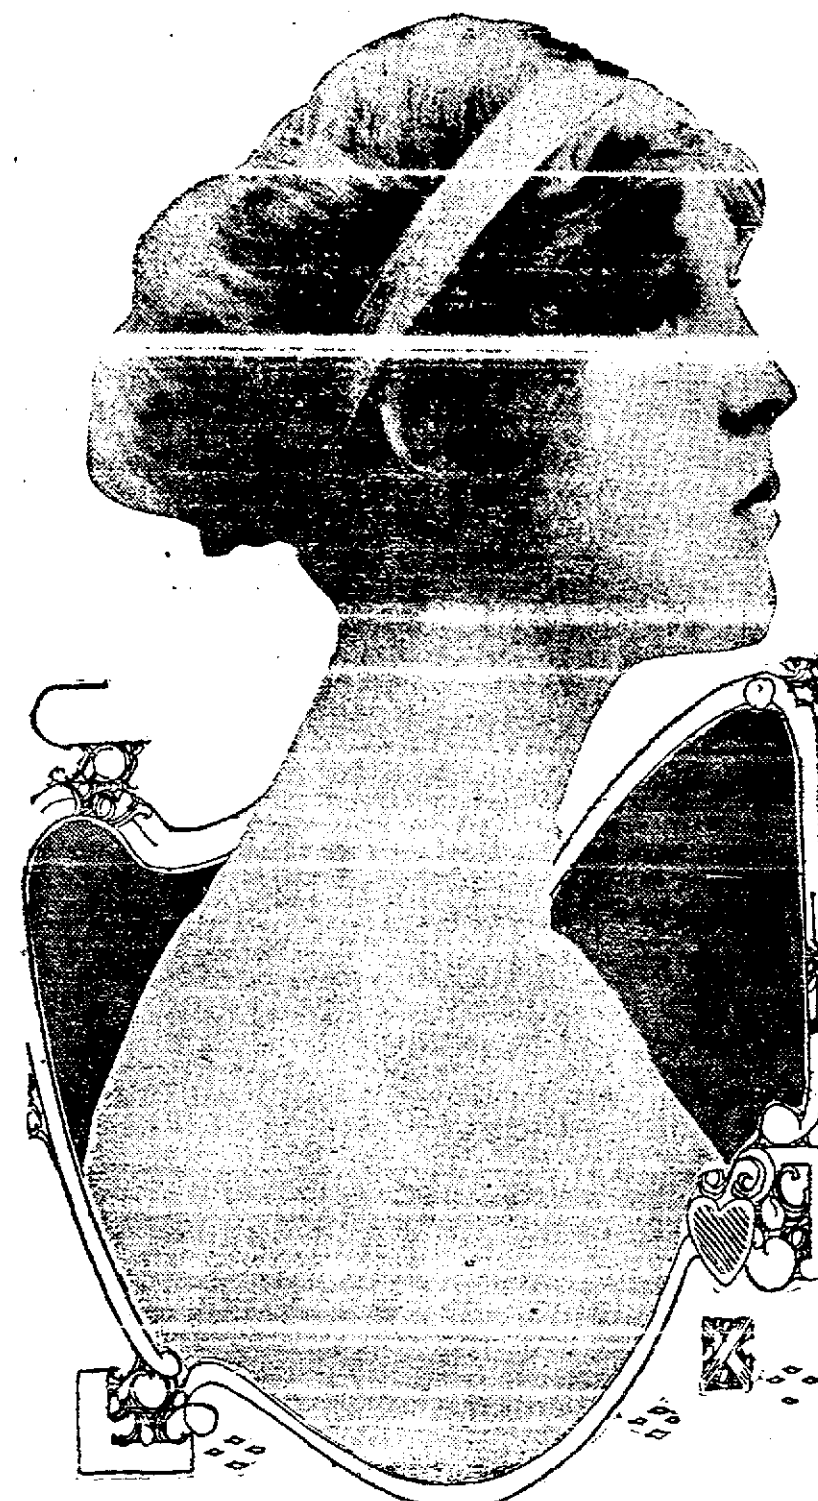

LUCY—You can wear the shades of red, the tans, greens, yellows, blues and the delicate shades of pink. Don't wear the dull blacks, or black of any kind, for you are too dark. Don't wear the dark browns or purples.

C. J.—At night wash your neck with warm water and a good soap. Then wring out a towel in hot water and place around the neck. Dry and rub a good cream into your neck. This will make the neck smooth. If you will send me a stamped, addressed envelope I shall send you a bleach.

F. C. J.—The following is a simple formula for a hair curling fluid. All curling fluids make the hair stiff, and it is not advisable to use them constantly. Curling fluids should not be used on light hair. Three ounces quince seed juice, two drams boric acid, one-half ounce spirits of wine and three ounces water. Moisten the hair with the fluid, then put it up in the old-fashioned hot curlers. The kid curlers give the hair a soft, pretty wave and will not break the hair or injure it. It may also be used before using the curling tongs.

MRS. W.—Here is the formula for foot bath: Ten grains calomel, one dram carbonate of zinc, five drops oil of eucalyptus, one ounce oilment of rosewater. Massage the feet with this every night and powder freely with talcum in the morning. Bathe the feet in cold salt water first, then apply the bath.

Give the 'Missouri Reason' Show Me Why No Suffrage

LADY DIANA MANNERS, WHO MAY HEAL BROKEN HEART OF DUKE DE ABRUZZI

Every Worker Is Voluntary Officer and Is Student of Social Life

COLUMBIA, Mo., March 3.—Within a few days, according to Mrs. Walter McNab Miller, president of the Missouri Equal Suffrage Association, the 23,000 signatures necessary on petitions for a vote on an equal suffrage amendment to the constitution, will have been secured. Nearly half of that number had been secured on January 23, after several weeks of the work throughout the state. Mrs. Miller today explained the "Missouri reason" for woman suffrage, the desire of the women to participate in and share the burden of government and not the mere seeking of more influence and power. She said Missouri will be the next "suffrage state."

"We are not entering the work as a 'fad for gain,'" said Mrs. Miller. "Every worker on the state president to a ward captain is a voluntary officer. The members of the organization are students of social life. They see that modern conditions are leaving some women too much leisure, while others have none. We cannot spend our time in bridge and parties of gossip. Yet modern improvements have lightened our housework and other duties. We must have something to do. On the other hand, we see women who never know a moment's rest. We believe that much or all of this is due to social conditions, which we propose to help correct. We want to help make housework impossible and child labor unnecessary."

"Every argument raised against equal suffrage has been raised against every step which has been made in woman's progress. We expect to show by all our conduct to attempting to secure the ballot that we can use it wisely when we get it. The number of college women in our association is an example of the type of women in the movement."

WIFE SENDS HUSBY TO THE ROCK PILE

LOS ANGELES, March 3.—Mrs. Sarah Vedegoff, member of a colony of Russians here, sentenced her husband, Nicholas, today to a year on the rock pile. Nicholas had been arrested on his wife's complaint for failing to provide, and appeared to answer in the Superior court. "The wife usually suffers in a case of this kind," said Judge Monroe, "and I will leave it to you, Mrs. Vedegoff, shall Nicholas have another chance or shall he go to the rock pile, which would insure your getting \$150 per day. The feeble man before me promptly declared Mrs. Vedegoff, 'Let him go to the rock pile.' And Judge Monroe sent him there for a year."

WOMAN ARRESTED AS MURDER SUSPECT

JACKSON, Cal., March 3.—Upon the accusation of Maria Donoso, charged with the murder of L. Rodriguez in a rooming house in Amador City, Mrs. Sanchez, proprietor of the rooming house, has been arrested and lodged in jail here as a suspect. Rodriguez was shot through the back as he walked down the hallway of the rooming house a week ago. Mrs. Sanchez said she found the body when she returned from shopping. She accused Donoso.

WILL SHE HEAL DUKE'S BROKEN HEART

LONDON, March 3.—Will Lady Diana Manners, noted English beauty, be the girl to heal the broken heart of the Duke of Abruzzi? Will the titled Englishwoman make up for his disappointment when the fair Miss Elkins, now Mrs. "Billy" Pitt, refused to become his mistress after years of courtship? This is what society is asking, following several rumors to the effect that the Duke has been very attentive there of late—in fact, almost devoted. Lady Diana, who is the

The First Frost

By DORIS BLAKE.

YOU remember one morning your husband went away without kissing you goodbye. Perhaps you were out of humor or he was at the moment. But you must have remembered it and felt the sting of a cold kiss in your heart.

That was the "first frost" to touch the flower of your love. Then perhaps the same thing happened again and finally you didn't miss the good-bye kiss at all. You became used to this neglect, whether it was his or yours. And by and by it was the occasional kiss that you really noticed—not the neglect of it.

Did you ever stop to think of the importance of keeping flower of your love sheltered against these blighting frosts? Do you know that three-quarters of the troubles and discontent in married life come from the very first neglect of the "good-bye" and "welcome" kisses?

In proof of the importance and sacredness of the first kiss, I read the following touching testimony from a man and wife, no more touching testimony than contained in the following letter could be had:

"I am past 60 and had been married over thirty-seven years when death took away my dear wife. We were both members of the same church and married from the very first. We knelt in prayer together, and on retiring and before rising from our knees would kiss each other. This custom was continued during our whole married life and prevented any serious differences to arise or to be carried over into another day. It is perfectly true that I read the letter was given before leaving in the morning and again at night on my return from business. You can easily understand what a comfort it was to me. It was impossible for us to drift apart."

"I am aware that this rule or habit would not apply to the time of day. I have in prayer. But I thank God we were able to enjoy so many happy years together from having started right."

She Sent Him Home.
"Dear Miss Blake: I got acquainted with a young man some time ago and have been going out with him quite often. We went out the other evening and it was quite late when we returned. So as I did not like to stand in the hall I spoke a few minutes to him outside and he told me he had better go as it was getting very late, and he said he would call me up or come up and he has not called me up. I read the letter was given before leaving in the morning and again at night on my return from business. You can easily understand what a comfort it was to me. It was impossible for us to drift apart."

"I am aware that this rule or habit would not apply to the time of day. I have in prayer. But I thank God we were able to enjoy so many happy years together from having started right."

She Wears His Fraternity Pin.
"Dear Miss Blake: What is the significance of wearing your friend's fraternity pin? Do you think it proper for a young lady to wear her friend's fraternity pin? Please inform me as soon as possible, and oblige."

"DOROTHY ROSE."
When a young lady wears a fraternity pin she announces her engagement to the owner of the pin. Unless you are engaged to the young man you have no right to wear his pin.

"Dear Miss Blake: Don't you think a young man has a right to tell the girl he is in love with when she is engaged? No, unless they are engaged to be married a young man has no right to declare his love to a young woman whom she shall have for his friend."

MRS. TORREY ENTERTAINS.

Mrs. Frederick C. Torrey was hostess at an enjoyable tea this afternoon. Her guests including members of the exclusive set of Berkeley and Oakland. This affair took place at her home in Berkeley.

FOR BRIDE-ELECT.

Mrs. Chester Cooper Borton was hostess at one of the most attractive teas of the season this afternoon at her home in Grand Avenue Terrace, when she entertained in compliment to Miss Ruth Holt, whose engagement to Earl Clifford Borton was announced a few days ago.

Orange tulips were combined with masses of acacia in the decorations of the dining room, and in the drawing room, where the guests offered their good wishes and congratulations to Mrs. Borton and her future daughter-in-law, peach blossoms and enchanting carnations were used in profusion.

Miss Holt's gown was a dainty effect of white and gold, the white crepe de chine ornamented with a border of gold, in which were introduced touches of blue. The bodice was ornamented with exquisite rose point lace.

Miss Hazel Holt wore yellow, a stunning gown of charmesse velvet in flowered chiffon.

Mrs. Borton made a striking picture in her gown of blue and gold brocade, elaborately trimmed with rose point lace, and Mrs. E. J. Holt wore a magnificent gown of lavender brocade elaborated with duchesse lace.

Mrs. Borton was assisted in receiving her guests by Mrs. Holt, Miss Ruth and Miss Hazel Holt, Mrs. W. A. Schrock, Mrs. George Fairbank, Mrs. Elizabeth Morse, Mrs. J. P. Potter and Miss Caro Pardee.

CONFIDANT OF SLAYER ON STAND

Mrs. W. H. Gray Testifies That Accused Woman Acted Irrationally.

Within a few hours after she had murdered her husband with a heavy, cambered revolver and left him lying in their Rand avenue home while she went out to seek the life of the "other woman," Mrs. W. H. Drown, who is now on trial for her life, declared to a friend, according to testimony in court, that Mrs. Marie Miller "must be a vicious woman because she killed a little mouse with a broom."

This was the testimony of Mrs. William H. Gray, the first confidant of the slayer following the crime. The first Gray took the witness stand in Superior Judge Ogden's court yesterday afternoon and related the circumstances of her meeting Mrs. Drown Friday evening, October 25, and of their trip across the bay to San Francisco. Her testimony under direct examination was brief. But counsel for the defense drew out her story in detail and when she had finished her remarkable narrative and when asked as to whether or not she believed the "little woman in black" to have been insane on that occasion, her answer was in the affirmative. On conclusion of Mrs. Gray's testimony the case was continued until Wednesday.

"When I first met Mrs. Drown near the Key Route Inn she was pacing up and down the sidewalk wringing her hands," said Mrs. Gray. "She appeared greatly excited and was at a loss to know what to do."

"I asked her what was the matter and she replied that she had run a block after a man whom she thought was her husband, that she had grasped him by the arm and been shaken off."

"I asked her if she had shot him and she replied that she did not know, but that she thought she had. She said she had returned home and admitted that he had been out with Mrs. Miller; that she upbraided him and that he had slapped her, with the result that she had shot him and then shot at Mrs. Gray referred to the night-gown alleged to have been worn by Mrs. Drown on that night, bringing up the matter by saying that the defendant had told her she had washed her nightgown earlier in the evening and dried it over the gas range."

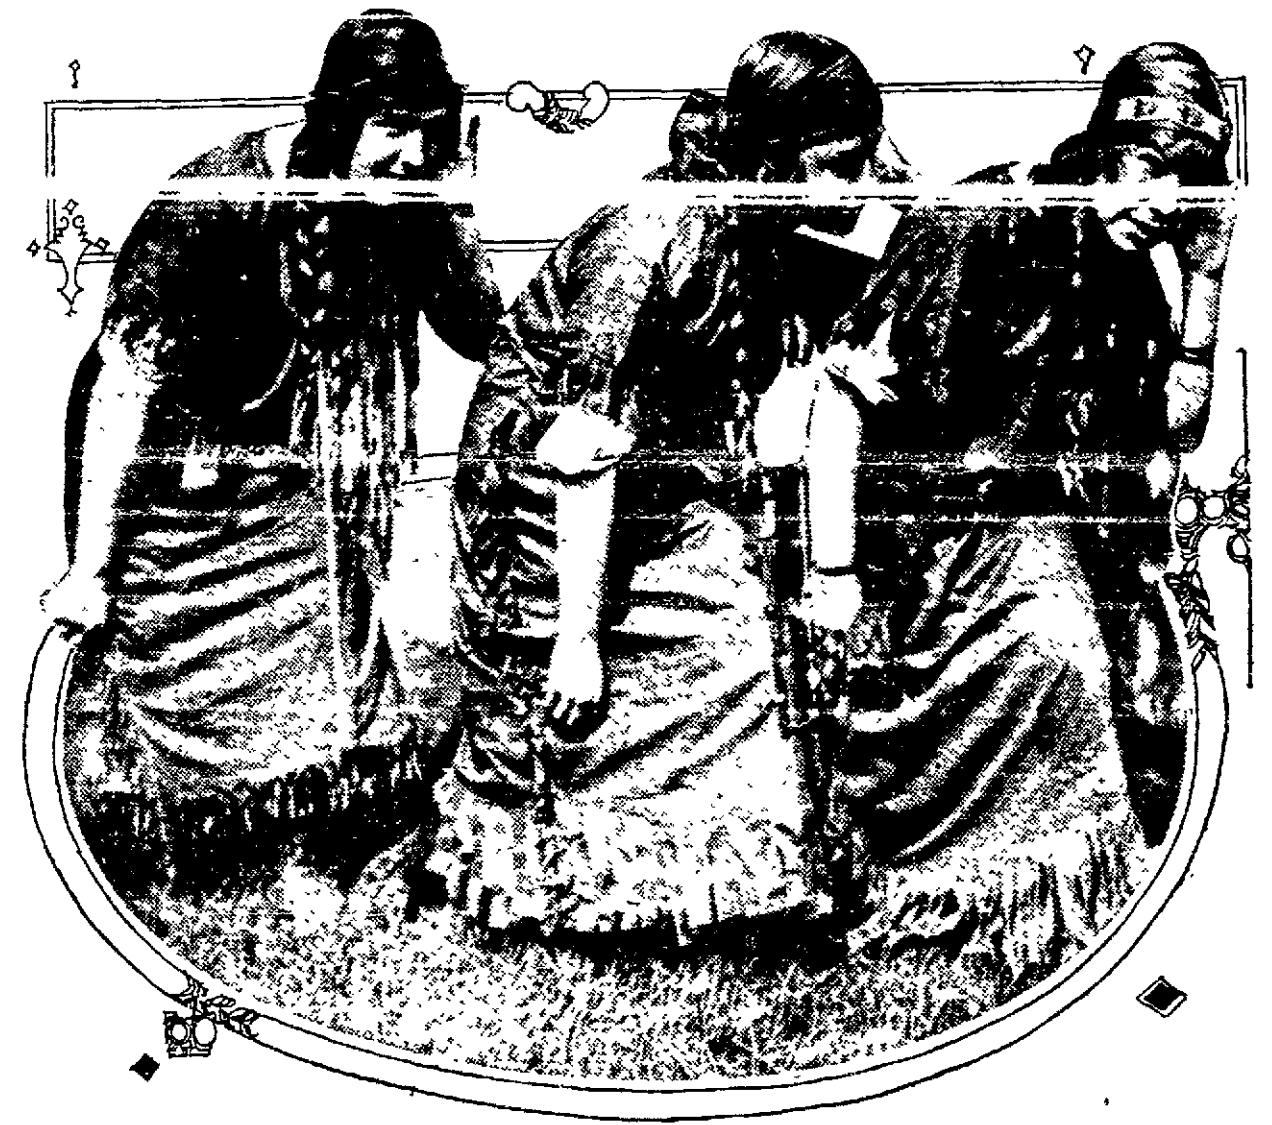

"It was not brought out whether the garment was washed early in the evening or after the murder and whether it had been stained with Drown's blood. There was a bullet hole in the wall to the side of the bed. Around the hole were distinct powder marks showing that the shot was fired at close range. There was still another hole in the floor beside the bed. The other two shots fired from the large caliber revolver may have been accounted for by the wounds in the body, but whether death resulted from one or two bullet wounds has not been made clear."

"Mrs. Drown told me that the revolver was very heavy and that when she went to shoot it slipped and was discharged into the floor," testified Mrs. Gray. But the bullet in the wall is grim evidence that the revolver was held firmly at level for the shot at least. Deputy Coroner Charles Steen testified that he had extracted the bullet from the wall of an adjoining room at about the level at which it had entered the other side."

NOT SHOT IN SLEEP, INDICATION

Coupling these facts together, it would seem that, contrary to what has been the general understanding, Drown was not murdered while he slept, that there was a struggle for life on his part against the odds of a leveled revolver, that he may have

RATTLESNAKE DANCE HAS TANGO'S SCALP

Modern Steps "Dead" Compared to Action in War Dance

"Oof, Oof! Big Injun dances! Chief Tango-in-the-Foot and Chief Maxie-in-the-Hands have nothing on Big Chief Tom-Tom dance!"

The tango, hesitation waltz, the Maxie—all the modern dances—have been eclipsed, and the old Indian war dances are holding the boards at the Oakland playgrounds. The ancient war dances of the Indians are being rehearsed daily by the Campfire Girls. The playgrounds are ringing with the sound of the tom-tom and the Indian waltz. The dancers are up and gone at the sound of the rattlesnake dance—and the dance of Argentine or Spain is forgotten.

At that, say the dancers, the tango and the rattlesnake dances are much alike—in fact, it might be that the festive dance of Argentine grew out of the dance of the Indians. The Indian dances, however, are more active, according to the girls, and therefore more interesting. The rattlesnake dance, for instance, with many dips, in imitation of the coiling of the serpent, is almost a course in gymnastics. Among the leaders in the movements for Indian dances in the playgrounds are Miss Maud Bruning, Miss Rima Jackson and Miss Dorothy Harmon.

stood beside his bed undressing when confronted by his wife; that one shot aimed at his chest went wild and that in dodging he stumbled into the bed where he received the fatal shot. Then the hand that clutched the weapon convulsively contracted again as it lowered, the woman staggering back and the bullet entering the floor.

Mrs. Drown may take the witness stand in her own behalf. Whether she will clear up the discrepancies remains to be seen.

"During the quarrel Mrs. Drown said she faints," related Mrs. Gray. "She said her husband picked her up and placed her on the bed, where she 'came to,' and told her that if his folks heard of the matter he would be ruined; that he was sorry she did not kill herself."

On the way to San Francisco Mrs. Gray said she saw the two weapons in the possession of Mrs. Drown. One was the heavy revolver and the other a lighter one which she carried in her stocking and with which she attempted to kill Mrs. Miller. Again it would appear that the defendant, after her experience with the heavy weapon desired a smaller one when she went to the Fine home to seek Mrs. Miller.

SOUGHT HUSBAND. "I asked her why she had the two revolvers and she replied that she did not know why she had purchased the other one," said Mrs. Gray. On the ferryboat Mrs. Drown repeatedly had Mrs. Gray approach different men to find out if they were her husband, the witness testified, and during the whole trip, from the time she telephoned and talked in a shrill voice, her un-

Woman Doctor Foe Of Tight Corsets; They Breed Divorce

BOSTON, March 3.—"Fifty per cent of the divorces in this country are caused by tight corsets," Dr. Maude L. Dymme said last night at the opening session of the Hygienic Fashion Institute. In explanation she said corsets caused indigestion, headache and backache and resulted in a sour disposition, "fertile ground for sowing the seeds of divorce."

The institute decreed that fashion again will favor the dainty woman and that garments will follow natural lines.

SAVES HIS WIFE AND CHILD FROM BOMB

Chicagoan Hears First Explosion and Prevents Second

CHICAGO, March 3.—Hearing that an explosion last night and suspecting that his apartment had been the scene of a bomb outrage, Simon J. Gorman, president of the Cook County Horsehoers' Association, hurried home and discovered a fuse snuffing in the hallway. Gorman tore out the fuse, which was barely two inches long and in the package were two sticks of dynamite.

Hurrying indoors, Gorman found his wife and child covering in the bedroom. The porch in the rear of the flat was demolished by the explosion which brought Gorman home, and windows in the building were broken.

Gorman told the police that a member of the Master Horsehoers' Association recently offered him \$5,000 if he would use his influence to bring about the consolidation of the two horsehoers' organizations. The explosion resulted from his refusal, he asserted.

Diggs and Gilligan To Ask Speedy Trial

SAN FRANCISCO, March 3.—Maury I. Diggs, former state architect, and Walter J. Gilligan, a salesman, accused of a felonious assault on Ida Peering, who claims to be but 17 years old, will appear once more to answer to charges against them on Friday. Presiding Judge Sturtevant this morning assigned the cases to Judge Cabaniss' department of the superior court, and that jurist set the hearing for Friday.

Diggs and Gilligan will be arraigned and it is understood that their counsel, Attorneys Mat Coghlan and Marshall Woodworth, will request a speedy trial.

Duke of Massari Weds as U. S. Citizen

NEW ORLEANS, March 3.—The Duke of Massari, now an American citizen, and resident of New Orleans, was married here yesterday to Countess Marguerite Zucchi, formerly of Florence, Italy. Duke Massari came here a few months ago, renounced his title when he applied for naturalization papers, and then obtained an absolute decree of divorce. He had obtained a separation in Italy but had the decree made final in the Louisiana courts.

SCORE W. R. GEORGE OF JUNIOR REPUBLIC

Findings of Informal Judges Sustain Two Charges

NEW YORK, March 3.—William R. George, founder and former head of the George Junior Republic at Freeville, N. Y., was further scored by the findings of three informal judges in a report made public here today.

The present investigation was conducted under the joint auspices of committees representing the Freeville Institution and the National Association of George Junior Republics. It concerned itself with three charges, two of which the judges sustained. On a third—a charge that George was the father of a girl's child—a Scotch verdict of "not proved" was returned.

The charges sustained were that George had made improper overtures to a girl citizen and that he went to another girl's room at night and fondled her.

The judges who passed on the charges were Joseph H. Choate Jr., Samuel Zabury, state Supreme Court justice, and Miss Lillian Wald, a social worker.

An erroneous report from Ethica Sunday night said that the judges in this hearing had rendered a decision acquitting George.

Mrs. Pauline French Granted Divorce

NEWPORT, R. I., March 3.—Mrs. Pauline Leroy French was granted divorce from Amos Tuck French, New York banker, by Justice Barrows in the Superior Court today. All the testimony was by depositions. Neglect to provide was alleged and no defense was made by Mr. French. The plaintiff swore that she left her husband in August, 1911, after he had told her that he never would live with her again. Mrs. French was formerly Miss Pauline Leroy and lived here, where the two were married on December 2, 1885. They have five children and maintained residences at Tuxedo, N. Y., and in this city.

MRS. PALMER HOLDS ON TO FUNDS

Trust Deposit Cannot Be Used for Memorial Building, Says Custodian.

CHICAGO, March 3.—Ultimate disposition of the \$67,000 trust fund granted the lady managers of the World's Columbian Exposition, 1893 was still unsettled today while Mrs. Potter Palmer, custodian of the fund, was spending her winter home in Sarasota, Fla.

Mrs. Palmer, whose ideas of the proper use of the fund differ from those of Hawley N. Higginbotham, president of the World's Columbian Exposition, left behind her a second statement in which she made it clear that the \$67,000 be augmented by \$200,000 from the estate of the late Potter Palmer and used in the erection of a woman's building did not meet her approval.

The Potter Palmer will devised \$200,000 for a woman's building, but it stipulated that the structure should be erected in the Lake Front Park. Mrs. Palmer pointed out that Supreme Court decisions forever bar such use of the park and that the trustees of the Palmer estate "have no power or authority to use \$200,000 of his estate to erect a memorial building except under the conditions of the will, now impossible of fulfillment."

In equally positive terms Mrs. Palmer stated that the \$67,000 fund "did not come, as Higginbotham stated, as a gift from the world's fair directors, but came from sales in the woman and children's buildings and is dedicated to philanthropic work."

Before boarding the train for Florida Mrs. Palmer replied to a petition of the women's party of Cook county that the fund be used for a woman's forum. She said that in her opinion "such a use of the money would be a deviation from the purposes to which this fund was dedicated."

The securities in which the fund was invested were checked over by a committee of bankers at Mrs. Palmer's request and their report that the fund amounted to \$67,750 was incorporated in Mrs. Palmer's statement.

Loren Corbun to Prove Competency

SAN FRANCISCO, March 3.—Loren Corbun, the 37-year-old Pasadena millionaire, is scheduled to take the stand late this afternoon and himself demonstrate, for the benefit of the jury, that he is competent to manage his own affairs.

Corbun has been fighting to be allowed to control his estate for the past six years and unable Administrator Hyman and his nephew are opposing him, each being represented by two batteries of lawyers.

When today's session opened Edwin Eaton, agent for C. H. Wadman of Gonales, lessee of the Corbun ranches, took the stand. Eaton told of innumerable contracts, leases and business arrangements made by Corbun. He gave it as his opinion that the aged man had always been competent to look after his property, and had never exhibited any symptoms of failing mind.

Ruthenian Agitators Given Sentences

RUSSIA, PESTH, Hungary, March 3.—Sentences were pronounced today on 32 Ruthenians charged with inciting rebellion against the Austro-Hungarian government. The principal prisoner, Father Alexius, a Russian monk from Mount Athos, was condemned to four and one-half years' imprisonment. He is said to be the leader of the movement and was alleged to have carried on the propaganda under the guise of efforts to convert the Ruthenian peasantry to the Russian faith. The movement was said to have been financed in Russia.

Thirty-one convicted persons were sentenced to terms ranging from six months to two and a half years. Twenty-three others were acquitted.

Evidence was given in the course of the trial to the effect that it was Russia's intention eventually to absorb a great part of Hungary.

Attorney Gets Jail Term for Contempt

SAN FRANCISCO, March 3.—"It was such language as you used that tempted a New York judge to get down from the bench and punish a lawyer in the nose," said Police Judge Deasy today as he sentenced Attorney William Schilling to five days in the county jail for contempt of court.

He refused to accept the lawyer's apology. Schilling is alleged to have written a letter to the United States Protective association in which he referred to Judge Deasy's conduct as "peculiar, unbecomingly improper, if not wilfully corrupt."

Denied 'Treat,' Peasants Attack Student Soldiers

PEACOCK, India, March 3.—One man was killed and seventeen men were injured in a riot at the garrison yesterday. Peasant conscripts attacked a number of students of the government engineering college who were doing military service in the same regiment with them because the students refused to treat the peasants to a drink in conformity with tradition. The officers of the regiment were forced to use firearms to protect themselves against the peasants.

CHILD ELOPERS LAND AT CAPITAL

Young Girls and Boy Companions Are Seen at Sacramento.

SAN FRANCISCO, March 3.—Anna Halloran, the 12-year-old girl who fled with Mrs. Kathleen Baber, aged 16, went to Sacramento, accompanied by two young boys, believed to be Herbert Smith, aged 17, and William Schuer, aged 15. This information was given to the police this morning by First Officer Eldon Chipman of the Southern Pacific river steamer Navajo.

There now seems no doubt that the quartet deliberately planned an elopement and that their trip to the moving picture show from the Halloran home at 812 Stanyan street Sunday night was merely a ruse.

The Navajo left here yesterday morning for the Capital City and arrived there last night. Shortly after the vessel docked Chipman was reading a newspaper and noticed the story of the disappearance of the girls and instantly realized that the quartet had been among his passengers.

The police have communicated with the Sacramento authorities and are hopeful of locating the runaways.

It is the theory of the parents of Anna Halloran, who instituted a search at 1:30 yesterday morning, when she failed to return home, that the party did not stay in Sacramento but took one of the electric lines for a more remote section.

Mrs. Baber left her 16-month-old babe with the Hallorans, who had taken her in to their household after she had told them a heart-breaking story of sorrow and disappointment.

Shipley Exonerated By Colonel Goethals

WASHINGTON, March 3.—Inquiry today of Colonel Geo. W. Goethals, chairman of the Panama Canal Commission who is now here, establishesthat that dispatch dated Panama on or about February 3, last, stating that W. P. Shipley, chief clerk of the subsistence department, had been suspended on grounds of incompetence, was erroneous. Colonel Goethals says Shipley was not suspended at that time nor at any time since. He also speaks of Shipley as an entirely competent official and says he is now satisfactorily discharging the important duties of chief clerk of the subsistence department of the canal. It appears that Shipley had been spoken of resigning in order to accept a business position which had been offered to him, and this may have given rise to the other statements in reference to him.

Colonel Goethals also entirely exonerates Shipley from any connection with the alleged transactions that led to the suspension of John Burke, manager of the commissary committee.

Aylen Heppner Found Not Guilty by Jury

CHICAGO, March 3.—Miss Aylen Heppner, accused of perjury in connection with the Henning-Funk alienation suit, was found not guilty by a jury today before Judge MacDonald.

Miss Heppner was a witness in the suit of John C. Henning, a libel, against Clarence S. Funk, former general manager of the International Harvester Company, for alleged alienation of the affections of Mrs. Henning. The Henning suit fell through and resulted in a vindication of Mr. Funk. Later conspiracy charges were filed against some of the participants in the alienation suit and Daniel Donohue, attorney for Henning, was found guilty of conspiring to defame Funk.

Miss Heppner had testified that she saw Funk and Mrs. Henning in a Chicago hotel in the conspiracy trial Mrs. Henning testified that she had never met Funk.

Family Tree Goes Back 600 Years

STOCKTON, March 3.—Family Tree? Have you one, gentle reader, or are you like other Californians, simply up-to-date to be able to say you are a Native Son and let 'er go at that?

FAMILY TREE GOES BACK 600 YEARS

Document, With Signatures as Legacy Receipts, in the Vaults of Bank.

The question is asked because of the presence in Stockton today of one Moritz Locher of Louisville, Kentucky. Locher can trace his ancestry back more than 600 years and he is proud of the fact and while he does not shout the fact from the housetop, he is nevertheless willing to tell a little of his family history when cornered and found in the right mood.

Locher is about 50 years of age. He came to the United States at the age of 17 and settled in Lamar, Indiana, where he was married to Miss Augusta Leber at the age of 21. He moved to Louisville, Ky., when 30 years old and has resided there since. He is a great traveler, which fact accounts for his being in Stockton today.

IS CONSTRUCTING ENGINEER. Locher is a railroad constructing engineer and quite recently was engaged in a big undertaking in Idaho. Locher has two sons and three daughters. His mother, who is enjoying good health at a ripe old age, resides with her daughters and sons in Owensboro, Ky.

Locher says that there is no record in the vaults of the Bank of Berne at Berne, Switzerland, the Locher family tree with signatures, given as receipts for a legacy, of the oldest male member of each generation for more than 600 years, and because of the complications of the provisions in the legacy the record is religiously kept.

As Locher tells his story, there were troublous times in Switzerland. The House of Hapsburg was in the ascendency and had been for 200 years when Uri, Schwyz and Unterwalden, three revered names in Swiss history, men fired with patriotism and love of country, set out to establish liberty for the Swiss in much the same manner as George Washington, did. This was in the year 1315. The three men started into a confederacy for mutual aid against Austria, which compact was confirmed later after the defeat of Leopold, Duke of Austria, at the great battle of Morgarten in 1315, when the Swiss nation and freedom of religious thought was born.

FIRST WILL LEFT. About this time a man died in one of the valleys of the Swiss Alps, a country of lofty mountain ranges, enormous glaciers, magnificent lakes and romantic valleys, leaving a will containing, some unique provisions, and these provisions account for the family tree of Locher being so complete.

Among the different bequests, for he was a rich man, was a legacy in trust forever, the interest of which to be paid to the oldest son of the male line, and should there be no son, the oldest daughter and then to her first born son.

The Bank of Berne was specified as trustee of the legacy and in accordance with provisions of the will one year later paid to the old man's son the interest on the legacy. At his death it was given to the next son, each one signing a certificate for the amount paid.

MORITZ LOCHER LOCATED. A few years ago an advertisement appeared in a Louisville paper reading something like this:

"If Moritz Locher, a native of Switzerland, will communicate with the Bank of Berne, Berne, Switzerland, he will learn something of his interest."

Moritz Locher, the man who is in Stockton now, saw the advertisement, and answered same, giving a sketch of his family.

To the satisfaction of the bank officials, Locher established his identity and within a month received a draft for \$200, interest on the same legacy bequeathed over 600 years ago.

With the first draft, Locher received the information that his older brother had died at St. Gallen, Switzerland, and he being the next oldest male member was the legal heir to the bequest.

Asked how it feels to be "six hundred years old," Locher this morning said: "With such a climate as you have one could not help feeling young and happy. This is my first trip to California, and I am most agreeably surprised in many particulars."

FEVERISH, SICK CHILDREN

ED "CALIFORNIA SYRUP OF FIGS"

For children's ill. Give a tea-

the foul waste, sour bile and ferment-

ing food, clogged in the bowels, passes

out of the system and you have a well

and playful child again. All children

love this harmless fruit laxative and

it never fails to effect a good "inside"

cleansing. Directions for babies, chil-

dren of all ages and grown-ups are

plainly on each bottle.

Mother, keep it handy in your home.

A little given today saves a sick child

tomorrow. Get the genuine. Ask your

druggist for a 50-cent bottle of

"California Syrup of Figs." Then look

and see that it is made by the "Califor-

nia Fig Syrup Company." We

make no cheaper size. Don't be fooled.

Teeth Meet; She's Happy

"Smile," Says Philosopher

MRS. ANNE McCANN,

whose philosophy has cheered

many a patient at the

Infirmary.

Aged Woman at County Infirmary Has Ills, but Cheers Up Others Marvelously

"Age is all right—except that it's hard on teeth."

"No, it doesn't make you feel any better to smile when you're sick, but think how much better people will think you feel. Fool them, even if you can't fool yourself, for they'll feel better then."

"Every day the doctors discover a new illness. I've discovered them all, but I should worry. I'm still alive, the doctors are still working, and so there's hope."—Philosophy of Mrs. Annie McCann, the County Infirmary philosopher.

She's the philosopher of the County Infirmary. She can hardly walk, and moves about painfully on crutches. She has, she declares, suffered from "all the diseases that is," and she is not through yet—but she smiles, and many a fellow patient has been cheered by her epigrams and philosophy on hospital life.

Mrs. Anne McCann, the County Infirmary philosopher, is one of the most cheerful patients that institution has ever harbored. She has been there for several years, and is known to every man, woman and child in the place. The remarkable thing about her is her smile, for it says, no matter how ill the owner may be or how intense her suffering.

"I might as well smile," she says. "It doesn't make me feel any better, but it makes others think I do, and then they feel more cheerful. It has its uses, a smile!"

"Age is another thing they sometimes sympathize with me for. Of course age is hard on teeth. I'll admit that. The few I have, though, meet all right so I'm not worrying about that."

She practices a philosophy of resignation and "taking-the-goods-the-gods-provide," and many a sick man and woman has gained a new viewpoint on life through her cheery remarks.

"She does more good to some of the patients than I can," declares the superintendent, Dr. C. A. Wills, "for she makes them smile—internally as well as externally. She's an optimist—and optimism is sometimes the best prescription we can administer."

SIERRA CLUB WILL HIKE TO REDWOOD

The Sierra Club is planning a walk to Wildwood Park and Redwood Peak for Sunday, March 15. The routing is as follows: Party will leave Fourteenth street and Broadway via Mandana cars to Sather Park tract, and from there "hike" through the natural parks to Redwood Peak. A midday lunch will be spread in the natural amphitheatre at that point.

During this noon period, it is the intention of the members to form a new club to be known as the Contra Costa Hills Club, and elect its officers. Mayor Mott and Walter G. Manuel, president of the Park Commission, and other city officials have been invited to be present and address the meeting.

The new club is fostered by Harold French, a member of the Sierra Club. The objects are for the purpose of inducing the owners of unimproved tracts back in the hills to lease their holdings until such time as they decide to subdivide these tracts, thus making a metropolitan park area. The cities have adjacent to these natural parks would be at no great expense, simply being asked for a few policemen and foresters.
